

regular Republicans stand for an honest primary law and for the parties against all those who now seek to destroy it. (X) on your ballot opposite the names of the 26 forward-leaders as indicated above in the fac-simile of the ballot.

NATIONAL POLITICAL NEWS

REGULARS CONFIDENT OF VICTORY

State Committee Urges
Voters to Vote G. O. P.
Delegates

Women, Grateful for
Party Support of Suf-
frage, to Aid

In closing the statewide campaign in behalf of the regular Republican candidates for delegates to the national Republican convention, the Republican campaign committee has sent a final word of confidence to the party in a promise of victory at the polls tomorrow. With the heavy Republican registration throughout the state it is predicted that the hydro-electric ticket will be repudiated by the voters, and that party loyalty will be the guide of the electors.

"Go to the polls tomorrow, call for a Republican ballot and stamp a cross against each name from Bordwell to Chapman," is the call to the citizens of California which has been made by the Republican campaign committee.

The committee, in its final statement to the voters, says:

"California needs the Republican party more than the Republican party needs California. If the producers of California expect to receive full consideration in tariff matters they should support the regular Republican candidates, and not the Johnson-Earl Progressive ticket, which is masquerading as Republican. The ticket if elected would not have the slightest influence in the Republican national convention. The welfare and the prosperity of California imperatively demand that a Republican representative delegation be sent from this state to the Republican national convention."

ONE REGULAR TICKET.

"The regular Republican ticket is recognized throughout California as the only Republican ticket. It is composed of twenty-six representative Republicans, not one of whom has any special favors to ask of the state administration, and each of whom may be depended upon to represent the Republicans of California fearlessly and honorably in the party's national convention at Chicago."

The committee, assisted by an advisory board, composed of active Republicans who have voluntarily given liberally of time and effort in the movement for the restoration of the Republican party, has also directed special attention to the action of the Republican state convention in favorably voting upon the question of national suffrage for women.

"The adoption by the convention and the pledging of the women to national suffrage has won the support of thousands of women in this state for the regular Republican ticket. Particularly has this been impressed because of the Earl faction's ignoring of this issue. Not a word was uttered by the Earl confederates on the subject. One of the results was the organization of the California Woman's Regular Republican League, which has thoroughly aroused the women of the state, and is prepared for active service tomorrow at the polls for the ticket."

"In a last word to the women of California," said Mrs. Florence Richmond, president of the league, "the league urges them not to fail to vote on Tuesday. The suffrage was given to us to use, and it is the duty of every woman to use it. We earnestly request our sisters in this great state to show their loyalty by casting their ballots tomorrow for the regular Republican candidates, those candidates who have given their endorsement of the great movement for national woman's suffrage. Every one of them, from Bordwell to Chapman, stands on that platform and resolution of the Republican state convention, the only convention in California that did endorse the Sutherland-Mondell amendment, which provides for national suffrage for women."

WOMEN FOR PARTY.

"Further, we women of California believe in the preservation of our great Republican party. We are opposed to the continual attack that has been made upon it. We helped last fall to prevent the wrecking of our party, and we are going to continue in the fight by voting for the candidates who really represent the Republican party."

Arrangements will be concluded today by the campaign committee and the league to get out the vote tomorrow. The women have planned a systematic district organization to work in a personal service by telephone and otherwise, particularly for women voters. Many volunteers have offered their time and effort at the polls and in the districts to the committee. All citizens who will give the time are requested to get in touch with the regular Republican campaign committee at headquarters in the Bankers' Investment building, 742 Market street, San Francisco.

DO YOUR HANDS ITCH AND BURN

BALLOT AS DEvised IS CONFUSING ONE

Little Regard Shown to Convenience of
Voters; Last 26 Regular

Tomorrow is presidential primary day. The only ballot with two tickets upon it is the Republican, and the names are printed in such a manner that the voter will have to exercise great care to make certain that his sentiment will be recorded as he desires and to avoid invalidating his ballot. The first twenty-six names make up the hydro-electric or "United" ticket. The second twenty-six, or the bottom half of the ballot, comprise the Regular Republican ticket. THE TRIBUNE is supporting the regular ticket, because it is the only one representative of the Republican electorate of the State and was chosen by a convention of legal representatives of its party. The sample ballot printed below shows how we believe the ballot should be marked. Cut out this form, take it to the polls with you tomorrow and mark your official ballot accordingly.

Sample Ballot, Republican Party, May 2, 1916

For Delegates to National Convention. Vote for 26.

These first twenty-six are the Earl hydro-electric ticket, self-styled "United Republicans."

These last twenty-six—from Bordwell to Chapman—are the Regular Republican ticket, chosen by the legally constituted Republican State Convention. To vote for this ticket put a cross (X) opposite each candidate's name. Vote only for twenty-six.

Burton Tells Chicago Coast Is Republican

CHICAGO, May 1.—Former Senator Theodore Burton of Cleveland, Ohio's "favorite son," candidate for the presidency, reached Chicago last night on the last leg of his campaign speaking tour of the United States.

Senator Burton, reviewing the trip that has taken him into forty-one states, said: "I firmly believe that Republican sentiment is growing rapidly. I have just come from the Pacific coast and out there we seem to be in splendid shape, with the exception of a few local spots."

"I have found the Far West people, also, alive to the question of preparedness, except in spots. Tonopa, Kes, for instance, seems to be the most apathetic on preparedness. I found very little response in that city to the preparedness suggestions. But in the border states, particularly New Mexico and Nevada, I think the Republican party, with its preparedness program, will sweep things. All along the coast, too, it seems clear that the Republican party is to come into its own."

Burton left last night for Cleveland for a short rest before coming back west the middle of May.

Warns of Trouble in Island Situation

WASHINGTON, May 1.—"Revolution will result in the Philippines if the United States continues its present attitude," declared Representative Jones, chairman of the House Insular committee, today.

"The ultraliberal arguments for retaining possession of the islands, so eloquently voiced by McKinley, Taft and other Republican leaders, are now giving place to those of commercialism. The mask of benevolence has been cast aside. We are now given to see the real animosity of those who would retain possession forever, in cruel indifference to the God-given rights of the Philippines. The arguments are based on commercial greed."

Jones said that the independence bill would enable the President to safeguard American rights and property.

Root Boomers Start Real Fight for Elihu

NEW YORK, May 1.—Announcement was made here tonight that a country-wide campaign has been undertaken for the nomination of Elihu Root for president by the Republican national convention. Headquarters have been opened here in charge of John W. Dwight, who was for twelve years a member of Congress. Senator James W. Wadsworth, it was said, will be the representative of the movement in Washington. Headquarters will be opened later in Chicago.

Cities Are Heavy Borrowers in War

BERLIN, May 1.—The report of the German loan banks for 1915 shows that while the maximum limit for emissions had been fixed by law at the sum of \$2,000,000,000, the sum of \$2,000,000,000 was passed only during three days. The highest level was touched on December 31 with 2,343,000,000 marks, the lowest on February 15, with 635,000,000. The principal borrowers were the municipalities which required large sums owing to the necessities of the war.

Appeal Made to Alameda County

G. O. P. Committee to Assist Voters

This appeal of Alameda County Republican Committee, to the Republican voters of Alameda county, was issued today:

We desire to urge all loyal Republicans to give their earnest support to the cause of true Republicanism by voting the last 26 names upon the Republican ballot tomorrow.

The candidates opposed to those names calling themselves "United Republicans" are not Republicans and are united only for the purpose of destroying the Republican party. That has been their mission for the past four years and tomorrow they would be successful in their attempt there would be no Republican party today.

By deceit and misrepresentation they are again attempting to do that which they could not accomplish by fair and honorable means.

The headquarters of the committee, number 219 Syndicate Building, 140 Broadway, will be open all day tomorrow. Automobiles will be ready to take voters to the polls who are unable to reach the polls by reason of illness or other causes.

You do not have to be registered with your party affiliation to enable you to vote. If you are registered you have the right to vote. Ample precautions will be taken to prevent the Progressive election frauds of this county will not be repeated. See that California is properly represented in the Republican National convention by stamping a cross opposite the last twenty-six names on the Republican ballot tomorrow.

Each of the twenty-six names as indicated on the form of ballot published in The Oakland Tribune.

ALAMEDA COUNTY REPUBLICAN COMMITTEE.

Can Uncle Sam Set Clocks Ahead Hour?

WASHINGTON, May 1.—Whether the example of the German government, which set all the clocks in the Empire ahead one hour today, could be followed in this country to good advantage, is doubted.

It seems impossible that there can be harmony in time relations between nations when, as in the case of Germany, time after today will be measured by a new standard.

It is announced by the Bundesrath that the advancement of time one hour in Germany will result in a vast saving of money, not to speak of the health, benefit that will accrue to the workers, who will go to bed an hour earlier each night and get up an hour earlier than usual.

According to the Bundesrath was primarily taken to conserve the nation's remaining two of which are lighting and fuel and both of which are admittedly growing more scarce.

After May 1, under the new time standard, the nation will be just one hour ahead of the world. While workmen of other European nations and the United States are spending the hour between five and six, snoozing those of Germany will be hard at work. At the close of their working day the Germans will have an extra hour for recreation.

Bacon Decision Is Now to Be Vacated

CHICAGO, May 1.—The circuit court decision which upheld the claims that Francis Bacon wrote the plays and other works attributed to William Shakespeare will be vacated it was announced today, after a meeting of judges of the tribunal.

The decision was given by Judge Richard S. Tuttle in a suit brought by William S. Sell, a motion picture magnate, to rescind a ruling of the circuit court in 1914, when it was held that the Bacon plays were the work of Francis Bacon.

The decision was based on the fact that Judge Tuttle had no right to hear the case inasmuch as it was in chancery and he was working on the law side.

Judge Jesse Baldwin, a member of the executive committee of the court said he had justified the inquiry into the decision after his attention had been called to the fact that apparent collusion existed between the parties to the suit.

U. S. Asks Court to Dissolve Can-Trust

WASHINGTON, May 1.—The government today filed a motion for a final dissolution decree in the anti-trust suit against the American Can Company in the Federal District Court at Baltimore. It asks that the corporation properties be disposed of and that it be enjoined from acquiring any interest in more than one of the concerns taking over the Can Company plants.

Petitions Filed to Regulate State Jobs

SACRAMENTO, May 1.—The initiative petition to keep state legislators from holding steady state jobs was given a big boost today when San Francisco sent 33,808 names to the secretary of state. There are now 45,854 signatures to the petition. Seventy-five thousand names must be filed by August 5th to get the issue on the ballot next fall.

Resigns Custody of 9-Year-Old Daughter

Mrs. Etta Nichols of Redding today regained custody of her 9-year-old daughter Alice Nichols, through habeas corpus proceedings before Superior Judge Ogden.

Mrs. Nichols has an interlocutory decree of divorce from George W. Nichols. Her daughter was in custody of an aunt who died, and recently has been with Mrs. Alice McCarthy, 2627 Fruitvale avenue.

Death Removes J. H. T. Watkinson

The many friends of Mr. J. H. T. Watkinson will regret to learn of his death on Sunday morning, April 30. His death was very sudden but, fortunately, painless. He will be remembered especially by Oakland people as a former president of the Peoples Water Company.

Mr. Watkinson came to this country from England when a young man and has engaged in many enterprises, including the development of real estate, breeding of fine cattle and assisting in the financing of many industrial enterprises. He was very well known as a man of high character and ability.

His winning personality made many friends. He leaves a widow, the daughter of the late Marshall Pierce and sister of the late Oranston Pierce.

Mr. Watkinson was a director in the following concerns: Crown Willemsite Paper Co., Bowers Rubber Works, Murray Water Co., H. & W. Pierce Inc., San Marcos Mining Co., Southwestern Land and Cattle Co.

FOUR MEN DEAD; FRAIL BOAT UPSETS

Tragedy Follows Effort to Reach Fishing Raft in Small Craft.

SAN BERNARDINO, May 1.—Four men were drowned in Little Bear lake in the mountains east of here at 7 o'clock this morning. Five others were rescued. A rowboat from which the party planned to fish for trout capsized. The dead:

DR. C. M. TRUMPOWER, Long Beach.
BENJAMIN M. RAPP, Long Beach.
HARRY THORPE, Los Angeles.
MORTON WEARNE, Los Angeles.

The party, including nine men, left the shore in a small rowboat for a raft in the middle of the lake from which they planned to catch trout. Before the boat put off several bystanders warned them of overcrowdedness.

The party camped by the lake last night and started for the upper end before daylight. All were heavily clothed and swimming was difficult. None of the survivors was able to explain the cause of the accident. Dr. Trumpower and Rapp were married.

In the middle of the lake one of the party attempted to shift his position. The boat overturned. The men struggled for some minutes in the icy water for a hold on the overturned boat.

Scores of fishermen watched helplessly from the shore, there being only two or three boats on the lake. Several attempted to reach the spot where the men were struggling by straddling logs and paddling with boards.

A rowboat was finally secured from the upper end of the lake and one man put out in it.

Dr. Trumpower struggled for some moments, trying to reach the overturned boat to which his comrades were clinging. A heavy overcoat and

Stray Dog Wins Prize for Woman

Found in City Pound, Now Champion

SAN FRANCISCO, May 1.—Nobody wanted Duke. He roamed the alleys and lots in search of stray bones and fought other dogs for a scrap of meat. His shaggy sides lost their curve and weeds knotted his hair. Duke became one of the thousand stray dogs at whom rocks are thrown.

And then a pound man came along and Duke was one of the dogs whose fate depends on the arrival of a kindly person. This person came. She was Mrs. L. W. Erickson. She gave Duke a good home and fattened his lean sides.

A few days ago Duke was taken to the Golden Gate Kennel Club's show and entered in the pointer section. The bluebloods of dogdom were there. Pedigrees that covered pages hung about.

Duke had neither pedigree nor pull. But keen-eyed judges came and gave him one. There will be no street dogs in the family of Duke, for Duke is now a first-prize winner.

Laborer Jumps in Bay, Is Rescued

Joseph Williams, a laborer of 601 Third street, was rescued from the waters of the estuary last night by Rudolph Waid, who jumped in after him and hauled him to shore. Williams was taken to the Emergency hospital, where it was found that he alleged attempt at suicide resulted in nothing more than a wetting.

Other clothing thwarted his efforts and he disappeared from sight before two others could reach him.

Shorty Frank McMillin, in a large automobile, left here as soon as the news of the accident was telephoned, with first aid equipment and tackle for dragging the lake. The lake was 300 feet deep at the spot where the four men swam. The names of the rescued have not been learned.

CALOMEL MAKES YOU SICK, UGH!

"Dodson's Liver Tone" Better Than Calomel and Cannot Salivate.

Calomel does you a day! You know what calomel is. It's mercury; quick-silver. Calomel is dangerous. It crashes into our bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel just remember that your druggist sells for 60 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to keep your liver without straining you up inside and can not salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel good. Give it to the children because it is perfectly harmless and doesn't gripe.

University Student Is Swept Away in River

EUGENE, Ore., May 1.—Owen Whallon, age 24, a senior at the University of Oregon, is believed to have been drowned last night when a canoe which he and three other students were riding was overturned in the Williams river rapids. The others, Laurence U. Derwood of Grant's Pass, a freshman, Orval Isaac of Riddle, Ore., a freshman, and James Cosman of Croswell, a senior, were rescued in an exhausted condition. The only hope of Whallon's safety is in the possibility that he may have been swept a mile or more down the river and reached shore so exhausted he could not get back to town.

You hear Caruso's living voice when you hear him on the Victrola

When you listen to one of the beautiful Caruso records played with a Victor Needle or Tungs-tone Stylus on a Victor or Victrola, you get the complete combination which produces the pure and life-like voice of Caruso.

You can secure this in no other way. Caruso himself chose the Victor as the one instrument able to reproduce his matchless voice with absolute fidelity.

Caruso makes Victor Records only. So also do Alda, Amato, Bori, Braslaw, Butt, Calvé, Culp, de Gogorza, de Pachmann, Destinn, Eames, Elman, Farrar, Gadski, Gluck, Hamlin, Hempel, Homer, Jadowlker, Kreisler, Kubelik, Martinelli, McCormack, Melba, Michailowa, Ober, Paderevski, Patti, Powell, Ruffo, Schumann-Heink, Scotti, Sembrich, Terry, Tietz, Whitehill, Williams, and Zimbalist.

Only on the Victor and Victrola can you hear them in your own home at their best—as they would have you hear them.

Why not enjoy the daily pleasure and inspiration which a Victrola will bring into your home? Any Victor dealer will gladly show you the various styles of Victors and Victrolas—\$10 to \$400—and play for you any music you want to hear.

Victor Talking Machine Co., Camden, N. J.
New Victor Records demonstrated at all dealers on the 28th of each month

Victrola

The instrument-of the world's greatest artists

Important warning. Victor Records can be safely and satisfactorily played only with Victor Needles or Tungs-tone Stylus on Victor or Victrola. Victor Records cannot be safely played on machines with jeweled or other reproducing points.

BUDGET HEARING FOR SCHOOLS SET

Supervisors Accede to Request
of Board of Edu-
cation.

Request was received by the Board of Supervisors from the Oakland Board of Education for a hearing on the Oakland school budget.

This was set for Thursday, May 25. The city of Alameda was granted use of 25 ballot boxes for the election in that city of May 23.

Answer to the board's letter, approving the proposed law to standardize tuberculosis treatment was received from Senator James D. Phelan.

"I am glad to have the benefit of the judgment of the Board of Supervisors in this matter," he wrote, "which will have my very careful attention when it comes before the Senate. At an opportune time I will present your resolutions in the Senate in the form of a petition."

The sum of \$250 was appropriated for the county exhibit at the county spring exposition, May 22 to 28. P. D. Parsons and an assistant were detailed to care for the exhibits.

Miss Ethel Richmond, nurse at the County Infirmary, was detailed to the County Dental Clinic, to replace Miss Marian Skinner, resigned.

Miss Lillian White, at the Baby Hospital, was replaced by Miss Janet Smith and Miss Emma Roberts, each to receive \$50 of Miss White's \$100 salary.

A new rule, that all resolutions must be approved as to legality by the District Attorney before coming before the Board, was unanimously adopted and all departments notified. This will, according to the supervisors, avert any legal errors and delays.

May 29 was set as the date of hearing on the proposed purchase of road property near Warren Springs. The Fallon estate, Frank T. Fallon, and others, are owners of the land.

Quarry road, in Mount Eden district, was ordered surveyed for repairs.

Liquor licenses were granted Fred Barkmeyer, Irvington; Goulart, Devild, Santa Rita; Joseph Spring, Drawbridge; and P. Quattrone, Niles.

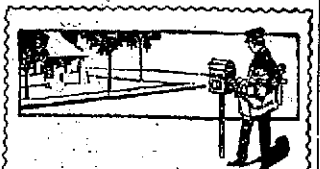

George Fitzgerald was named watchman at the Detention Home. Recess was declared until next Thursday.

Ferry Bumps Piles in Near-to Collision

Caught in a swirling current near the Ferry building this morning a Southern Pacific ferryboat, the Oakland, was thrown against the piles of the Key Route slip. A number of persons were knocked off their feet and badly frightened, but no one was hurt. After the boat had backed away it came into the path of an approaching Key Route ferry and for a moment a collision was threatened. The Key ferry was stopped within twenty feet of the Oakland.

Use Zemo for Eczema

Never mind how often you have tried and failed, you can stop burning, itching, eczema quickly by applying a little Zemo furnished by any drugstore for 25c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of pimples, black heads, rash, eczema, tetter and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, Zemo is an exceptional remedy. It is not greasy, sticky or watery and it does not stain. When others fail it is the one dependable treatment for all skin troubles. Zemo, Cleveland. Advertisement.

The U. S. Mail must never fail. So Postman will provide. To bathe their tired and sweaty feet. Each night with Cal-o-cide.

Cal-o-cide. For Aching, Burning, and Sweaty Feet, Callouses, Corns, and Sore Eruptions. Gives Instant Relief. It penetrates the pores and removes the cause. Results positively guaranteed. Get a box from any drugstore. Remember the name.

SUPERVISORS REOPEN INFIRMARY PROBE

Stormy Session of Board When "Investigated" Subject Is Revived

(Continued From Page 1)

deliver this goods. But you did not."

"I won't plea guilty to being a horse thief," remarked Wills.

FOR DISTRICT ATTORNEY.

Witschen, representing the district attorney's office, declared that Foss had procured the affidavits he produced through Owen Paul, whose license at San Lorenzo was revoked on a charge of conducting a disorderly house. "It is not the district attorney's fault," he said, "if we were not given these affidavits."

Supervisor Heyer moved that the sheriff be ordered to find King, whose charges Foss pressed before the board and who was later reported missing. "If he has been spirited away," said Heyer, "I want to know it. I want to know who is giving him his booze money?"

Foss asked that Lavin be also subpoenaed.

"Lay off Jack Lavin," shouted Heyer. "I will attend to him."

"I don't see why we should differentiate," said Foss.

Foss opened the discussion of the whole affair with the filing of the affidavits, charging that liquor had been furnished Welles and McQuoid, both at the saloon of Lavin and at Rose & Picano's, in the Ashland district. Kelley at once motioned that the matter be referred to the committee of the whole.

"I object to burying this in a committee of the whole," shouted Foss. "We have the evidence. I demand that we have a hearing. We have revoked other licenses for this. Why may we not revoke this one?"

"It's mighty peculiar," said Murphy, "that these affidavits were made October 2, 1915, and have only just been filed. Why did Mr. Foss hold them six months? Why did he not produce them before?"

"A man in this board room offered to produce them six months ago," said Foss, "and the district attorney said he would investigate the matter. He did not. Now I am giving him a chance to see a few things."

"It is not the district attorney's business to investigate such things," shouted Deputy District Attorney T. P. Witschen. "We did investigate the Rack Track saloon because it was a disreputable place and liquor was sold to women. The license was revoked at the district attorney's request."

"Were you present at the hearing at the infirmary as a representative of the district attorney?" demanded Foss. "And did you not hear Brannin admit being bought drinks by infirmaries inmates at Lavin's?"

"I am not a witness stand!" retorted Witschen.

"Why were you at the hearing?" asked Foss.

"To advise the board on legal matters," answered Witschen.

"The district attorney said he would investigate this matter and did not," insisted Foss.

"Why drag the district attorney into it?" demanded Witschen.

"Why did he promise to investigate?" asked Foss.

"What jurisdiction has the district attorney got?" asked Kelley.

"You can revoke a license without the district attorney—you only have to vote," said Witschen. "And did you not hear Brannin admit being bought drinks by infirmaries inmates at Lavin's?"

"It is his place to come to us," shouted Foss. "He was in the room the day of the Owen Paul probe. He heard it all."

"We were never asked to investigate," said Witschen, "and have no supernatural power to know what a supervisor wants if he has not enough sense to ask us."

"Paul's place was revoked because it was disreputable," said Heyer. "I can't see why Foss is so hard on Jack Lavin. The people there are the best judges and 99 per cent of them will touch for his place and character."

"If Billy Brannin, the yard boss,

drank with inmates there, it was not while Jack Lavin was in the place, but when Brannin was tending bar for him. I am not opening saloons, but I want to be fair to Jack Lavin."

"The men of the infirmary are mostly there because they lap up booze," said Foss, "and do you think it proper to keep a place open where they get more of it to drag them down?"

"Brannin only drank with inmates a dozen times in three years—that was his testimony," said Heyer.

"Would he have to do it four or five thousand times before it would be wrong?" demanded Foss.

"We are not holding the investigation here—let us take up these things at the proper time," shouted Murphy.

WHERE IS KING?

"Where is this fellow King?" demanded Heyer. "I don't know—do you, Foss?"

"If I did I would have him here on the job," answered Foss. "The last I heard of him he was near Lavin's, drunk."

"That is not a fair charge—it is misleading," said Kelley.

"Well, the car in front of Lavin's place had to stop for fear of running over him—that was near, wasn't it?" asked Foss.

"I thought you said it—not near," answered Kelley.

"Well, said Heyer, "there are accusations that King was spirited away. I want to know where he is, and who is giving him booze money. I saw one member of this board give McQuoid money."

"It wasn't me," chortled all the members but Foss.

"I gave him two bits for lunch one day," said Foss.

"Free lunch?" asked Kelley.

"I don't know what he bought with it—beer or lunch," answered Foss.

"And I don't care,"

SUMMONS ISSUED.

On Heyer's motion summons were ordered for King, McQuoid and Welles. McQuoid is still at the infirmary. Foss declared that he did not know where Welles or King were.

"Inmates get permission to leave the hospital, booze and come back when they feel like it," said Heyer.

"That ought to be stopped."

"Yes," said Wills, "McQuoid has three or four permits in advance and comes back over my head."

"That is a slap at me," said Foss.

"When I go to the infirmary I don't find Wills on the job, and that is why I gave King a permit."

"Don't let anyone back even with a permit, if they break the rules," said Murphy to Wills. "We will back you up."

"And in the meantime what is before the board?" The thing is settled. We will hear all this stuff Thursday in the hearing. Let's do business.

Recess was declared to Thursday, when the matter will be finally probed. The hearing was set for 11 o'clock.

Seek to Connect Caplan With Plot

LOS ANGELES, May 1.—Evidence intended to connect David Caplan with the purchase of dynamite alleged to have been used in the destruction of the Los Angeles Times building more than five years ago, was introduced today in Caplan's trial for the murder of Charles Hagerty, one of twenty men who were killed or died from injuries received in the explosion.

Testimony was given to show that Caplan bought aluminum letters to form the name "beetles," placed on the launch "Paelema" in which it was contended the alleged conspirators brought the explosive from Grant, California, to San Francisco; and also that he bought a tarpaulin used to cover the dynamite.

Mrs. W. H. Brown testified Caplan called at the home of Mrs. Belle Lavin in San Francisco before the explosion and asked for Matthew A. Schmidt, convicted last December in the same case and sentenced to life imprisonment.

His appointment with Elsie Arredondo, the Mexican ambassador, later today was asked by the ambassador, who did not disclose his purpose.

Confirmation of the removal of the capital of Vera Cruz state, to Orizaba from the Port of Vera Cruz reached the state department today. No explanation was given.

The department also received from Chihuahua City official denials that there was great destitution in that region or that food riots or anti-American demonstrations had taken place.

SEND MANY MESSAGES.

EL PASO, May 1.—The question of withdrawing the American expedition from Mexico up to the general man in Mexico, W. S. Storer, general manager of the National Mines and Smelter Company, wrote to Scott alleging that Carranzistas took all American ammunition from his company's employees at Magistral and afterward looted the property.

Pro-intervention interests here gave Scott documents to show that the Carranzistas would not co-operate to police the border, but that they themselves were looting American property.

General Obregon was visibly disappointed over the delay to the American-Mexican conference. He said, with the shadow of a smile on his face:

"We are waiting—watchfully waiting—for developments; impatiently waiting, I might say."

Much war talk is heard among the crowds in Juarez. Younger officers on the staff of the various Mexican generals were voluble. One said:

"Obregon's column can be wiped out within ten weeks. General Obregon's demands are not answered satisfactorily."

MILITARY TRAINING URGED BY CHAMBER

Special Committee on Defense
Files Recommendations
With Body.

Universal military training, industrial preparedness, a large standing army and large reserve force, the National Council of Defense, and the second largest navy in the world, are among the recommendations of a special committee on national defense appointed by the chamber of commerce of the United States, which is now conducting a referendum on the question of preparedness among the chambers of commerce of the nation.

The report of the committee has been referred to the Oakland Chamber of Commerce, and will be acted upon early in May. The result of the vote in this organization will be transmitted to the national chamber at Washington, where the referendum will close May 23. The recommendations as submitted by the special committee of the national chamber are as follows:

No. 1. "The committee recommends that, for the preservation of the peace and honor of the United States, the national defense forces both at sea and land should be so increased and the industrial capacity of the nation so organized as to insure the most effective use of the economic resources of the United States in case of war."

No. 2. "The committee recommends that a body in the nature of a council of national defense be created by law to assist in the development of an adequate and continuing policy for national defense."

No. 3. "The committee recommends that a staff of industrial mobilization be forthwith created by law and so organized and maintained in times of peace as to insure the most effective use of the economic resources of the United States in case of war."

No. 4. "The committee recommends that a program of naval construction be adopted immediately sufficient to restore the United States to its former position of second naval power in the Atlantic, with a surplus in the Pacific sufficient to protect its coasts, its possessions, its trade routes, the canal zone and adjacent territory."

No. 5. "The committee recommends that there be created by law a general staff for the navy by strengthening the present office of naval operations with the navy department, or otherwise."

No. 6. "The committee recommends that the regular army be increased until it together with its trained reserves, sufficient to meet the needs of the general staff of the army, or by the council of national defense or similar body after it has been created by law."

No. 7. "The committee recommends that the military obligation of every citizen be made a fundamental duty of democratic citizenship in a republic and to establish a system which will affect every one alike, recommend that universal military training be established as a national duty, and that the principles of our military policy be enforced by law to furnish adequate land, sea and industrial forces in peace and war."

TO EDUCATE INDUSTRY.

No. 8. "The committee, recognizing that the constituent elements of necessary national production are of infinite variety that they can not all be produced in government plants in time of war, but are and must be produced in highly diversified and specialized industries, recommend that the fundamental feature of the national policy for supplying war material should be to educate private industry in time of peace in the manufacture of such material, under prepared government regulation of prices, rather than to turn to production in government plants alone."

No. 9. "The committee recommends that the educational arrangements for private manufacture for the production of war material in time of peace serve not only to supply current needs of the army and navy, but also to accumulate a reserve of war material sufficient to supply our land and sea forces, both regular and reserve, from the beginning of the emergency until the full production of the country can produce the increased supplies then requisite."

No. 10. "The committee recommends that an adequate number of commissions be granted to officers of the army and navy, which will be added to the regular army for detached service and that a properly trained officers' reserve corps be created sufficient to officer the very large number of men that have to be raised immediately in the event of war."

DUBLIN REBELLION ENDS IN SURRENDER

(Continued From Page 1)

down their arms at the foot of the Parnell monument in Sackville street and surrendering to British troops. About 450 of them who had fought since Monday in this central area marched out from their strongholds under the white flag and gave themselves up. A few irresponsibles continued sniping from lairs, difficult to locate, on roofs or among rafters of buildings nearby.

James Connolly, one of the leaders of the uprising, is said by government officials to be a prisoner, wounded. RECALLS SAN FRANCISCO.

British troops occupy the Four Courts. The last portion of the downtown rebels have surrendered and soldiers are systematically canvassing the city, searching for arms and ammunition and arresting suspects where rebel uniforms are found.

The center of Dublin recalls San Francisco after the fire. Fine buildings are tumbled into ruins and blackened by smoke. Gaunt, bullet-scarred walls are swaying in the wind, pierced by shells and ready to topple.

Soldiers' rations are being fed to the populace. Long lines of destitute have formed at the food depots, the poorer women and children, with hunger pinched faces, standing beside wealthy residents to entreat the authorities to recover their automobiles, which the rebels commandeered when the riot began.

Each applicant receives a portion of codfish and canned meat. Two

soldiers accompany each citizen to his home and search the premises. Peter Pearce and James Connolly, rebel leaders, approached the authorities and agreed to arrange terms of surrender. They were told that they must lay down their arms unconditionally.

Connolly was seriously wounded when shells from a British gunboat struck Liberty Hall. Pearce was wounded in the leg. Many rebels discarded their uniforms and escaped capture by mingling with crowds of civilians.

Proclamation Urges Blow For Freedom

DUBLIN, May 1.—The proclamation of the first Irish Republic, issued at midday on Monday, reads as follows:

The provisional government of the Irish republic to the people of Ireland:

In the name of God and the dead generations Irishmen summons her children to her flag and strikes for freedom. Through her military organization, having perfected discipline and resolutely awaited the right moment, she now seizes that moment, and, supported by her exiled children in America and her gallant allies in Europe, she relays on her own strength, she strikes in full confidence of obtaining victory.

We declare the right of the people of Ireland to the ownership of Ireland and the restoration of Irish destinies to be sovereign and indefeasible. Long usurpation of that right by a foreign government has not extinguished that right, nor can it ever be extinguished except by the destruction of the Irish people.

Standing on that fundamental right, we hereby proclaim the Irish republic as a sovereign and independent state, and pledge our lives and the lives of our country to the cause of its freedom, its welfare and its exaltation among the nations.

The Irish republic claims the allegiance of every Irishman and Irish woman. The republic guarantees religious and civil liberty and equal rights and opportunities to all its citizens in the affairs of the republic.

We place the cause of the Irish republic under the protection of the most high God, whose blessing we invoke upon our arms.

The Irish nation must, by its valor, its discipline and the readiness of its children to sacrifice themselves for the common good, prove itself worthy of the august destiny to which it is called.

Signed on behalf of the provisional government: Thomas J. Clarke, Sean MacDiarmid, Thomas MacDonagh, P. H. Pearse, Banon, Cavan, James Connolly, Joseph Plunket. The proclamation issued by the insurgents at Dublin at the outbreak of the revolt and signed by the same persons, reads in part as follows:

The people of Ireland, the Irish republic to the people of Ireland:

Irish men and Irish women, in the name of God and of the dead generations from which you receive the aid and traditions of a nationhood, Ireland through us summons her children to her flag and strikes for her freedom, having organized and trained her manhood through her secret revolutionary organization, the Irish Republic, and through open military organization, the Irish volunteers and the Irish citizenry.

Having partly perfected their discipline and resolutely waited for the right moment to reveal itself, she now seizes that moment, and, supported by her

arrangements are expected to be made for a large patriotic demonstration at the station before hearing the train.

All those wishing to join the party and secure the advantage of the special train and help to swell the crowd to large proportions.

CIRCUS MAIL IS ONE MAN'S WORRY

Robinson's Ten Big Shows Has
a Flood of Letters
Every Day.

C. W. Tinney, the mail carrier with John Robinson's Ten Big Shows, which will give afternoon and evening performances in Oakland Monday and Tuesday, May 2 and 3, is a very important personage—at least in the eyes of the army of show folk whose mail goes through his hands. Also, excepting the managers and ticket sellers and takers, he is perhaps the busiest man with the show, for he looks after practically all of the postal matters (receiving and sending letters, parcels, registered mail, post office money and orders, etc.) for over 600 men and women. Quite a family, isn't it? You probably would not care for such a position. But it doesn't bother C. W. Tinney. He attends to this work, in conjunction with his other duties (he is also musical director and has charge of the several bands of the show) with as much ease as any healthy, able bodied person would experience in looking after a highway. He carries a large leather bag just like that of any regular U. S. mail carrier, but he wears no uniform. He has his credentials, and the uniform is not necessary.

In every town and city in which the circus exhibits, he visits the postoffice thrice daily—in the morning, midday, and late in the afternoon. He calls and mails in care of the circus and subsequently receives a list of the executives, agents, performers, musicians, etc., of the show and asks for their mail. He looks after practically all of the postal matters (receiving and sending letters, parcels, registered mail, post office money and orders, etc.) for over 600 men and women. Quite a family, isn't it? You probably would not care for such a position. But it doesn't bother C. W. Tinney. He attends to this work, in conjunction with his other duties (he is also musical director and has charge of the several bands of the show) with as much ease as any healthy, able bodied person would experience in looking after a highway. He carries a large leather bag just like that of any regular U. S. mail carrier, but he wears no uniform. He has his credentials, and the uniform is not necessary.

The circus mail carrier's compensation is not high, but he is not paid until the end of the season. The day on which the circus gives him a list of the executives, agents, performers, musicians, etc., of the show and asks for their mail. He looks after practically all of the postal matters (receiving and sending letters, parcels, registered mail, post office money and orders, etc.) for over 600 men and women. Three Million Spent for Cathedral Nave

NEW YORK, May 1.—About \$3,000,000 already has been spent getting part of the great Cathedral of St. John the Divine built, and today the church started work on the nave that will take \$3,000,000 more. Several million more than that will be needed to complete the structure, which was started several years ago and has been delayed by the war.

News in Small Doses

PITTSBURGH, May 1.—A process for extracting ferro alloys of manganese and silica from slag, which it is claimed, will result in an immense saving to steel manufacturers, has been discovered by George

A. Hays of Swickley, Pa., and G. D. Albin of Elmira, N. Y., students at the Carnegie Institute of Technology.

FRANKLIN, Pa., May 1.—"Passport," champion Jersey milk of the United States, owned by former Congressman Joseph C. Sibley, is dead here. Her record was 15,543 pounds of milk a year.

SALT LAKE CITY, May 1.—Announcement was made today that D. S. Spencer, assistant general passenger agent of the Oregon Short Line, will succeed David E. Burley as general passenger agent of the road, effective May 1.

DAWSON, Yukon Territory, May 1.—The ice in the Yukon river has been breaking up in many places between Dawson and White Horse, the head of navigation, and it is believed the river will be clear in about a week in ten to twelve days. The season has been much later than usual, but the last few days have been warm.

AMOI, China, May 1.—Bombs found on an island in Amoy harbor have been destroyed by a Chinese cruiser. Four thousand northern soldiers have been landed in Fukien-Kwantung line. The unrest is growing.

HOT SPRINGS, Ark., May 1.—Edgar H. Pettigrove of Denver, Colo., arrested here today on a charge of embezzlement, readily agreed to return home without the formality of a trial, and on the night he was on his way to Denver in custody of an officer. It was said at police headquarters that Pettigrove was alleged to have appropriated \$20,000 while employed as cashier by Swift & Co.

FARGO, N. D., May 1.—Snow fell over North Dakota and Western Minnesota yesterday. Although the fall was not heavy, it is believed that seeding will be materially delayed by the added moisture.

ASHLAND, Ore., May 1.—Early yesterday burglars broke in to the office of the Fruit and Produce Association here and blew up the safe, the explosion being extremely violent. Only a few dollars were secured.

PORTLAND, Ore., May 1.—His skull fractured by a pitched ball, William Martin, 23, is in a serious condition today. Martin was playing with the Verboort team against Banks, Ore.

CHICAGO, May 1.—Andrew J. Graham, head of the banking company of Graham Sons, died today at the age of 55.

ALBUQUERQUE, N. M., May 1.—A carload of aeroplanes, for the use of the American force at the border, passed through here last night.

CHICAGO, May 1.—The appellate court of Illinois today upheld a decision of the superior court granting a permanent injunction to Chicago school teachers against the board of education restraining it from enforcing the state rule, limiting them from membership in the Chicago Teachers' Federation.

Blood Stains Reveal Clew to Night Crime

SAN FRANCISCO, May 1.—Telltale blood spots scattered over the front of his shirt were responsible for the placing of an additional felony charge against Antonio Corbelli, who had been arrested for robbery early this morning.

Corbelli, together with Albert Silver and Silvio Piccirilli, was taken into custody for alleged attempt to hold up Robert Blach. When he was searched the city prison here, blood marks were found on his shirt. He was taken to the Central Emergency hospital, where C. Abrocin identified him as a man who had stabbed him in the abdomen last night at Broadway and Kearny street. Corbelli was then charged with assault to commit murder.

Prohibition Law in Georgia Effective

ATLANTA, Ga., May 1.—The new prohibition law which became effective at midnight last night will be strictly observed by the so-called "lock-up" clubs and by the liquor interests throughout the state. It is generally believed here today.

No reports had reached here early today of any disorder marking the passing of beer saloons.

The new law makes illegal the sale of beverage containing more than one-half of one per cent alcohol, limits to two quarts of liquor or forty-eight pints of beer, or one gallon of wine every thirty days, shipments to any individual within the state and prevents advertising of liquors in the state.

Exhibitors at San Diego Organized

SAN DIEGO, May 1.—A new organization has been added to the position with the forming of the State and County and National Exhibitors' Association. Joseph A. Marshall of Alameda county is president, D. W. Twitchell of New Mexico is secretary, C. L. Wilson, southern counties, is chairman of the membership committee, and D. H. Hunt of Santa Barbara is chairman of ways and means.

Dances are to be given frequently under the auspices of the organization, pageants will be prepared, and a program of entertainments will be outlined at the weekly meetings at the various buildings. The organization starts with a membership of eighty.

Hero of Manila Bay Commemorates Battle

WASHINGTON, May 1.—Admiral Dewey today is celebrating his eighteenth anniversary of the battle of Manila Bay. No plans had been made for any special celebration so far as the hero of the day personally was concerned. As president of the navy general board Admiral Dewey was at his desk as usual today giving personal attention to the duties of his office.

Admiral Dewey, who is 79 years old, is in his usual good health.

Chinese Agents Here to Spend Million

PITTSBURGH, May 1.—With authority to spend a million dollars, N. C. Chu and Gee Sing Sam, Hongkong brokers, arrived in Pittsburgh today to buy tools, hardware and building supplies for use in China.

Because of the war, it is said, China has been unable to get needed steel goods delivered. It is believed one of the reasons for the mission of the Chinese is to secure contracts that will carry better delivery accommodations.

Says Task Senseless; Gives Up \$12,000 Job

NEW YORK, May 1.—Henry Bruere, known throughout the country for his efficiency work in municipal government, walked out of his office as Chamberlain of the City of New York and left a perfectly good \$12,000 a year job kicking around because he said the job was a senseless waste of money and he could not keep up the pretense.

Bruere came from St. Charles, Mo. He originated the Dayton plan of city management as it is employed in that place, his plans for the future.

ORTEGA-LESTER BATTLE MADE THE MAIN EVENT

Simpson Reinforces West Oakland Card With Heavy-weight Match.

Tommy Simpson, West Oakland Club boxing promoter, has been forced to call off the scheduled Johnny Arrousey-Harry Peeling featherweight tilt, and instead he has matched a set of pummelers who should provide plenty of ring excitement for the appetites of the local fans. Peeling was inclined to keep the local promoter's place as it was intended. With the Arrousey-Peeling bout off the calendar, Simpson now announces that the Wednesday night show will consist of the following matches:

Settling Ortega vs. Cliff Lester, middleweight championship Mexican Kid Carver, Los Angeles, vs. Norman Stone, Jimmy Ford, San Francisco 125-pounder, vs. Billy Alveris, Henry Hendricks, vs. John Ruetting, 220-pounder, Jimmy Arrousey, Los Angeles bantam, vs. Jimmy Dundee, Oakland 116-pounder, Sammy Morris vs. Otto Wesley, Joe Griner, dealer of Jim Phillips vs. Joe Herrera, and Frankie Volquist vs. Sammy Peeling.

The return of Jimmy Ford to the local game will be watched with keen interest, particularly because he is matched with Billy Alveris, Pete Nolan's mixer, for the eighth time. The sale has not up some boys. Three times the pair have clashed in Oakland. The other four affairs have taken place in San Francisco.

In their first San Francisco fight, Alveris and Lester were given the decision. The remaining six bouts have all been draws, with neither side having a shade on either occasion. Neither Wednesday night's match will decide the struggle for supremacy between the two main contenders to be seen.

Maxwell Kid Carver who was scheduled for a bout at the Wheelmen Club several weeks, but failed to appear, will be back in the ring Wednesday night's bout. Carver is scheduled to clash with Norman Stone, the husky kid who gave Willie Webb such a merry time of it a while back. Henry Hendricks vs. Frankie Volquist, the heavyweights, will meet Charles Miller not long ago, will meet John Ruetting, a local favorite who weighs 224 pounds, against a local favorite who is height and has a reach of 65 inches.

SACRAMENTO BACKS UP STATE FAIR

HARNESS MEETING

SAN FRANCISCO, May 1.—All rumors that there was a possibility that no sulky races would be held in Sacramento were quashed when the board of the State Agricultural Society at a meeting today held out an appropriation of \$50,000 for the State Fair horse and harness meet. This appropriation does not include the facilities and stakes features, but will be in view of the racing season beginning September 2 and ending September 9. The program of events will be announced as soon as it is completed. In view of the appropriation and the prizes to be offered the aggregate of the purses will be larger than in 1914, when the State fair was held.

Following immediately on the heels of the announcement from Sacramento, the committee from the Contra Costa Agricultural Society and the Pacific Coast Trotting Horse Breeders' Association decided to take the breeders' meeting to Santa Rosa this season. August 7 to 12 were selected for the harness races.

Other points which are likely to name dates in the near future are Dixon, Pleasanton, Fresno, Hanford and Woodland. The Contra Costa Agricultural Society has the effect of putting renewed life into the game, as horsemen have been unwilling to start their training work until they were assured that there was some objective. Local tracks again are scenes of active preparation, and it is likely that the season will be a successful one.

St. Louis American swallowed their sixth straight defeat on the home grounds when Chicago hammered out a 6-to-2 win.

HELP! HE FANS 72 IN 33 INNINGS

VANCOUVER, Wash., May 1.—Louis Kutula, pitcher for the state school for the deaf, fanned twenty-eight in eight innings in a game with the Twenty-first Infantry here yesterday. Despite this showing, he lost his game, 1 to 0. Kutula went after his previous record of twenty-one strike-outs.

In thirty-three innings Kutula has fanned seventy-two men.

ADVISORY BOARD OF STANFORD VOTES TO KEEP RUGBY

Student Body at "Farm" Will Vote on Football Tomorrow.

STANFORD UNIVERSITY, Cal., May 1.—The Athletic Advisory Board, the Executive Committee of the Associated Students and President Ray Lyman Wilbur all went on record against the revival of the American game of football at Stanford University. The board of the Associated Students voted 10 to 2 to keep the old game at its place in the college sports program.

The Athletic Advisory Board made public today its recommendation which was submitted with the unanimous endorsement of the Executive Committee of the Associated Students.

The recommendations were: That Stanford continue to play rugby. That an athletic agreement for two years be made with the University of California. That an invitation be extended to the University of California to meet Stanford in an intercollegiate game of rugby to be played next fall or spring, as may better suit California.

The resolutions will be presented to the Associated Students at their next meeting, announced today, for full consideration and a vote.

In this connection President Wilbur said today:

"If the American game means the return to the eye of the old coaching system, it is a better game than rugby, but nobody has been able to convince me yet."

TINKER TOLD TO CUT DOWN CUBS

CHICAGO, May 1.—A telegram received by President Charles Weeghman of the Chicago White Sox baseball team from President Turner of the National League, informing the Chicago club that the regular link of the players' union, caused considerable comment among followers of the team today.

It is now carrying twenty-six men, including Manager Joe Tinker. The player-limit rule, if enforced, will require that at least four men be released at once, as the rule takes effect May 1. President Weeghman, it was said, was told at the time of the signing of the peace agreement between the Federal League and organized baseball that he would not have to cut down the roster when he combined the Cubs and the White Sox.

THOMPSON AND EHMKE GO EAST

Howard "Kid" Ehmke, former Angel twirler, left for Syracuse, New York, yesterday, where he will pitch for that club for the rest of the season. Lefty Thompson, also an Angel pitcher, who tried out this season, left on the same train with Ehmke. Thompson will join the Toronto Club of the International League. Both are expected to have good seasons.

ONWARD RUSH OF CUBS AND ROBINS THE BIG SURPRISE

Detroit Tigers Continue Also to Startle Fans in American.

NEW YORK, May 1.—With the weather improving and the teams generally playing in good form, the early in the season, the past week furnished some important changes in the standings of the National League.

The onward rush of Brooklyn and Chicago in the National organization and of Detroit in the American, featured the third week of the season's races. During the seven days, Cincinnati in the National League and St. Louis in the American, fell behind rapidly.

Although not playing as good baseball as earlier in the season, Philadelphia maintained its lead in the National League. Alexander, pitcher, broke even, and the veteran Chief Bender lost his first game of the year to his old teammate, Jack Coombs.

Brooklyn made the most spirited advance of the week. Manager Robinson's re-constructed infield appears to be a good combination and his pitchers have improved. The team has been better. Daubert leading in this respect.

With the pitchers in good form and the batting improved, Chicago was able to win seven straight games until defeated by St. Louis Saturday. McCormick and Hendrix showed good form in the Sox and Zimmerman's batting was a feature.

IN AND OUT.—St. Louis and Pittsburgh played in and out baseball, but managed to retain their approximate positions. Cincinnati, despite improved batting, especially by Chase, failed to keep up its former fast pace.

New York is still unable to get started and did not win a game during the week. DETROIT GAINS LEAD.—Detroit, with Cobb and Crawford, both out for several days, won four games and lost one and gained the American League leadership Saturday. The hitting of Heilmann and Veach filled the void made by the absence of Cobb and Crawford.

The series between New York and Boston gave the American League followers some excitement. The Red Sox were returned winners, but the teams were still almost neck and neck. Two of the Red Sox's victories went to extra innings.

New York was weakened by the illness of Gilchrist and Mays, but managed to keep up a good pace. The batting of Nunnemaker and Baker gave encouragement to the Sox and Zimmerman's batting was a feature.

CLEVELAND IMPROVES.—Washington and Cleveland showed improved form and are making opposing teams hustle hard to win. Walter Johnson won two games for the Senators. The batting and fielding of Graney featured Cleveland's victory.

Although Chicago's heavy hitters showed flashes of better batting from the White Sox dropped slightly. The team's pitching staff appears weak.

St. Louis failed woefully to maintain its winning gall and dropped five consecutive games. Fielder Jones' men seemingly have dropped off both in batting and pitching simultaneously.

Philadelphia still brings up the rear in the American League.

Louisville's growing winning streak put the Colonels far in front in the American Association and the race now is strung out over a longer distance than at the end of the first week. Except, however, for the tall orders and the Colonels, the teams in the middle station are pretty well bunched.

A. A. U. PRESIDENT DUE HERE SOON

President Turner of the Amateur Athletic Union of the United States is expected to arrive here within the next few weeks, according to an announcement made by President Dodd of the Pacific Athletic Association yesterday. Dodd has received a letter from the national press stating that he was making a tour of the country in the interest of the National A. A. U. meet to be staged at Newark, and would spend several days here. Turner is expected to stop over in Los Angeles before coming here. He will make his headquarters at the Olympic Club in San Francisco.

OLYMPICS SECURE RAY DUNNIGAN

The Olympic Club of San Francisco has secured another great athlete in Ray Dunnigan, former handball champion of Southern California and at one time a member of the Los Angeles Athletic Club. Dunnigan has deserted the southern club for the transbay organization.

TECH CLASHES WITH OAKLAND HIGH

The Oakland Technical and Oakland High School baseball nine will meet this afternoon at Grove street park. Tech is after the county baseball title, but if it loses today will be expected to get in action for the Post street series soon and may be seen in action against his former team made of Los Angeles in a series of inter-club matches.

WOMEN READY FOR GOLF TITLE

BURLINGAME, May 1.—Beagle hunting save way today to the opening play on the Burlingame Country Club links of the Northern California Women's Golf championship, which will last five days. About fifty women golfers entered the medal play in the qualifying rounds today, but the contest will be narrowed down by Friday to just a few of the foremost, such as Mrs. Hubert Law of San Francisco, Mrs. C. F. Ford of San Francisco, present northern champion, and Miss Edith Cessabrough.

All to play will be over 18 holes, both medal and match. The match play will be contested in the semi-finals, beginning tomorrow or Wednesday.

Two other prominent players who are expected to finish well are Mrs. A. R. Rothchild, also of San Francisco, and Mrs. Northern California women have been conceding today's championship for "about ten years," they say.

NESS WILL NOT JOIN BALTIMORE

CHICAGO, May 1.—Jack Ness, the hard hitting first baseman procured by the White Sox from the Oakland Coast League club and recently sold to Baltimore, has declined to join the Orioles. He has signed with a semi-professional team here for Sunday games.

SEALS ARE HITTING DEMONS.

SAN FRANCISCO, May 1.—Baseball fans of a statistical turn of mind today pointed out that the Seals during the seven games last week garnered 78 hits, an average of better than 11 hits per game. At that they won only four games.

California Retains All But Two of Its Ball Team

BERKELEY, May 1.—The baseball season never ends for the university baseball fans and the Stanford-California series is hardly over when the enthusiasts of the University of California are commencing to talk about prospects for next season. California has a series of future according to the dope sheet and will be affected in its line up by the loss of only two men, one of whom played irregularly.

The Bruins will lose Captain Edward Young through graduation and also Outfielder James Haggerty. Young was playing shortstop and Bequette leftfield and both men were in no small way responsible for California's victory in the series. To fill the places of these two men, next year's coach will have Kenny Hayes back in college to play second base and will probably switch Claude Rohrer to shortstop, his real position.

At first base Stanford will be pitted against Freshman Captain Thompson and at second Hayes will probably have seen short Rohrer is a possibility. In center, Captain Adair will be seen and in right, it Rohrer will appear on the list.

At first base Stanford will be pitted against Freshman Captain Thompson and at second Hayes will probably have seen short Rohrer is a possibility. In center, Captain Adair will be seen and in right, it Rohrer will appear on the list.

WASHINGTON EIGHT MAY TAKE PART IN POUGHKEEPSIE RACE

While it has been stated that the University of Washington eight-oared crew will not make a trip across the continent to participate in the Poughkeepsie regatta, there is a persistent rumor to the contrary that refuses to be downed. As a matter of fact, it would occasion no surprise in rowing circles, if later in the season the announcement is made that the trip will be undertaken.

The proposition of having the winners of the Eastern regatta come to the Pacific Coast to meet the local champions is not believed likely to bear fruit. In view of the invitation extended to Washington by the stewards of the Poughkeepsie regatta, aside from the incentive furnished by the fact that the Stanford crew already has made its plans to participate in the Eastern classic, it is the general opinion that there is a good chance of the Washingtoners being in their boat when the crews are started on their four-mile struggle down the Hudson.

There is said to be no particular objection raised by the college authorities against the crew making the trip. The business men of Seattle are reported to be enthusiastic in the matter and are reported to be matter and are said to be willing to put their hands in their pockets to help defray the expenses in the event that the question of finances comes up.

UNEMPLOYED PROBLEM NO MORE EXISTS

Organized Labor Reports Most Prosperous Year

New York Is Center of Strikes and Tie-Ups

WASHINGTON, May 1.—Organized labor received more in the year ending with May 1 in increased wages, shortening of hours and legislation than ever before in its history, according to officials of the American Federation of Labor. Wage advances were general the country over in virtually every line of industry and laws benefiting labor were put on the statute books of every state in the union except five.

Wage increases were greatest in the metal trades, many of which were stimulated by war orders. Cotton manufacturing was the only main industry which did not grant substantial increases. The steel trades, too, claimed the least number of strikes during the year, though many plants increased the pay of their men and cut working hours voluntarily.

UNEMPLOYMENT VANISHES. One benefit brought by the industrial revival which labor officials consider as important as increases in wages, was the effect on unemployment, which has disappeared within the past year. Statistics just compiled by the Department of Labor show that men of all trades have been called in to work. Iron and steel mills have on their payrolls now 30 per cent more men than were employed a year ago and the car building and repairing industry has increased its forces by about the same percentage. Manufacturers of boots and shoes are employing 20 per cent more men than this time last year.

Wage increases during the year ranged from 5 to 15 per cent. No statistics have been compiled by either the Department of Labor or the American Federation of Labor, but reports coming in to both tell of what is being accomplished in manufacturing plants in all parts of the country.

The Department of Labor puts the country's 1916 strikes at 1600, about 200 more than the year before. About two-thirds of them were for wage increases or decreased working hours and most of them were successful.

STRIKE IN NEW YORK. NEW YORK, May 1.—An analysis of labor conditions in this city and the metropolitan district shows that May 1 dawned with between 50,000 and 60,000 working men and women on strike or locked out, with other industrial disturbances threatening which may throw thousands more out of employment.

Strikes involving scores of thousands are in effect or threatened in other parts of the East, notably in Pittsburgh, where 14,000 Westinghouse employees are on strike. Strike also is pending in the country-wide demands of 40,000 railroad employees.

Taken altogether, no May Day in recent years has witnessed so many concrete evidences of industrial unrest, in spite of the fact that many thousands of workers have been granted higher wages and shorter hours.

The right of labor to an increased share in the country's prosperity resulting from the war, joined with the higher cost of living, are decided by labor leaders generally to form the foundation of the May Day movement.

MAY AVERT WALK-OUT. An encouraging development almost on the eve of "May Day" was the announcement that a tentative agreement had been reached by the representatives of the operatives and masters who probably would avert a strike of 15,000 miners in the Atlantic coal fields.

Announcement was made last night, also, that because of concessions granted by steamship companies and master stevedores, a general strike of workmen on the water-front in this city will be averted.

Industrial disturbances here include one of the most serious in the city's history. The cloak, suit and skirt manufacturers' association, the members of which do an aggregate annual business estimated at \$275,000,000, anticipating a possible strike on the night of the summer's activities in garment-making, forestalled such action last week by declaring a lock-out affecting between 20,000 and 35,000 employees.

PAINTERS INVOLVED. The next largest strike in this city, momentarily, involving about 10,000 painters and decorators who demand increased pay. Other trades in which employees are idle include 2500 jewelry workers and 1500 custom tailors. There also are scores of other strikers in Metropolitan district and in New Jersey involving smaller numbers, but aggregating thousands of employees.

The demands are for higher wages and shorter hours.

Hugh Frayne, general organizer here for the American Federation of Labor, said that all told, more men and women were enjoying higher pay and shorter hours than ever before in this city.

The marine traffic of this port was seriously affected today by a strike of the engineers and firemen on the vessels of the lightering class. Hundreds of tugboats and other towing craft were idle at their piers and the congestion of freight, involving delays of cargoes on steamships and railroads presented a serious problem.

The engineers demand wage increases approximately 14 per cent and recognition of their association. The firemen ask 20 per cent more pay.

Of more than 700 tugs and steam lighters engaged in river and harbor traffic it was estimated that only forty were being operated.

CHICAGO PROSPERS. CHICAGO, May 1.—"May Day" in the Middle West dawned on a labor situation which, according to advisers from the leading industrial centers, is the most tranquil and promising in years.

Generally speaking, this condition is due largely to the prosperity of the country, the demand for labor and concessions and advances conceded in the course of the last year by employers.

Nowhere in Kansas, Nebraska, Iowa, Missouri, Oklahoma, Wisconsin, Minnesota, Illinois, Indiana, Ohio or Michigan are there strikes of national

importance. In most of the states disturbances of the labor market are of a distinctly minor nature.

ROCKY DISTRICT QUIET. DENVER, Colo., May 1.—Absence of labor troubles and renewed activity in various lines were the outstanding features in information made public here today concerning the industrial situation in the Rocky Mountain region. Conditions generally were described by labor leaders as satisfactory.

In metal mining districts, mines long abandoned are being prepared for resumption of work and the high price of silver has created unusual activity in a number of old silver camps. Leadville, Aspen and other famous camps of the days of the silver boom are awakening, while the gold camps are taking on new life.

Steel workers in the Pueblo plant of the Colorado Fuel and Iron Company recently obtained a voluntary increase of 10 per cent in wages and last Saturday were granted an additional increase.

The few wage disagreements in Colorado that have arisen within the last year have been satisfactorily adjusted by the State Industrial Relations Commission, which announces that there is not a serious controversy pending between employer and employee.

MANY IDLE IN OHIO. YOUNGSTOWN, O., May 1.—About 2000 machinists employed at the various industrial plants of the city did not report for work today. As a result of meeting held all day Sunday and far into the night there is a possibility that the number of idle men will be greatly augmented before the day is over.

LUMBER MILLS GIVE RAISE. HOQUIAM, Wash., May 1.—Orders for a strike of the northwest shingle-weavers in all mills where wages were cut two years ago became operative today. Every mill except the Northwest in Hoquiam, acceded to the union's demands. The increase allowed is 17 cents a thousand for sawyers and ten cents for packers.

SHIPBUILDERS STILL OUT. LONG BEACH, May 1.—Officially Shipbuilding Company officials admitted early today that 300 men were out on strike, leaving only about fifty machinists and other trades in the yard. Forty machinists, blacksmiths and their helpers struck Saturday. Practically all other tradesmen at the plant went out this morning. They ask increase in wages and shorter hours.

AKRON HAS STRIKE. AKRON, O., May 1.—Several hundred carpenters were on strike here today. Of the 900 carpenters in the city union leaders claimed 600 had struck. The strikers ask an eight-hour day instead of nine hours and an increase of pay from forty-five to fifty-five cents an hour.

ALSO IN YOUNGSTOWN. YOUNGSTOWN, O., May 1.—Five thousand men were out of work here today following a strike of 2000 machinists demanding an eight-hour day and a closed shop, with fifty cents an hour minimum wage.

CINCINNATI ALSO. CINCINNATI, O., May 1.—Thirty-five hundred machinists struck here today. Several shops, including munitions plants, granted their demands.

GRAIN MILLERS OUT. FORT WORTH, Tex., May 1.—Sixteen hundred grain elevator workers went on strike here today, making a total of 2000 now out. Port Arthur men are also striking.

GARAGE STRIKE ON. SAN FRANCISCO, May 1.—Approximately a dozen San Francisco garages and automobile repair shops were affected today when more than 150 members of Machinists' Local 68 walked out, making good a threat of two weeks ago. The strikers recently notified the garages and repair shops that the machinists' wages beginning May 1 would be \$4.50 per day. Many of the shops acceded to the demand. The strikers today held a meeting to formulate plans of action.

COAL INCREASED. PHILADELPHIA, May 1.—Anthracite operators here today said prices of prepared sizes of coal will have to be increased to the consumers as a result of the agreement reached with the miners' union. The new coal fields. Chairman Warriner, of the operators' general conference committee said the new agreement would involve a general wage increase of slightly more than 10 per cent or between \$10,000,000 and \$12,000,000.

LONGSHOREMEN MEET. SEATTLE, May 1.—Representatives of the International Longshoremen's Union from every port on the Pacific coast are gathered in annual convention here today to consider demands for more wages and better working conditions.

The first session opened at the Labor Temple at 10 o'clock. Officials of the union declined to discuss their plans in detail but stated that one of the important issues to be considered is a readjustment of the wage scale to give the longshoremen a share of prosperity due to increase in shipping.

It is understood the longshoremen will demand an increase of 5 cents an hour, or from 50 to 55 cents and from 60 to 65 cents.

A fight is on for the office of president of the Pacific coast district. International President T. V. O'Connor, it is understood, leading a movement to oust District President John Keane of San Francisco.

Garments Burn in Mysterious Blaze

Fire of undetermined origin which took place in the Donner Clark & Suit House, 1328 San Pablo avenue, yesterday was under investigation by the police today. The cause of the blaze is still a mystery.

The fire destroyed the warehouse store of Mrs. M. R. Weeks, 1322 San Pablo avenue, was also damaged.

M. Santos, 671 Fifty-second street, sought to find a leak in the gas pipe in his house by going to the basement with a lighted candle. He was not hurt in the ensuing explosion, but a fire started, which threatened to destroy the home. The blaze was extinguished by the fire department.

Youth Struck From Car and May Die

SAN FRANCISCO, May 1.—While on his way to take part in the May day festivities in Golden Gate Park, Charles Brooks, 13 years old, was struck by a car on a street car crossing at Ashbury street, receiving a skull which may cause his death. Another car, rounding the corner, knocked him off.

EXONERATES NICHOL. SAN FRANCISCO, May 1.—Superior Judge Deasy, in upholding the will of the late John Fanning, a retired police officer, exonerated Judge Eugene F. Conlon, his nephew, of a charge of undue influence. This allegation was made in a contest begun by Nicholas Fanning, a niece, who, with her brother, was not mentioned in the testament.

Ramble Through the Shops

LAST for mortal hopes focused on low cost of living—one way that our glad raiment might have been reduced is to let the possibility have been crushed by a local merchant.

According to a local merchant, whatever comes here from New York must come by rail for a long time, and that means high transportation.

"Nothing can be shipped from the East to California for at least a year, perhaps two years, I'm told by a commission merchant who came to me," he announced. "I had hoped that now that the canal is open again merchandise might be shipped through. But nothing's doing. Here we've had to have everything sent from the East for the last six months—and another one or two months—that makes it expensive."

Take this to heart, fellow shopper. It means that from beads to blankets, the things in our stores must travel by train instead of in the hold of a romantic but economical ship. It means, too, that if you wait until the war is over to buy your new dress or your new hat, you may find yourself in Rip Van Winkle's predicament.

Anyhow, vacation isn't far away, and the shops are crammed with sport stripes and other things—such as these advertised in THE TRIBUNE.

Though high-waisted skirts have practically done away with belts for some seasons, the belt is coming back into favor. White, kid of various widths appear to be the favorite, but at Tart & Fenner's may be also found patent leather and others of both more and suede. Others are decorated with stitched bands of patent leather or of Chinese leather in colored designs.

The skirts are distinguished this spring by interesting embroidery on the ends, and another quaint touch is found in the fringe which hangs above or below the pleats. One at this same shop had both the top and bottom of its pleated white satin bordered with soft frills. This skirt was to be fastened either at the side or back with flat, gold-colored buttons and two embroidered like a churru. Another elaborate example of the dress skirt had conventional designs at the ends worked in beads of black, blue, green and gold. This ribbon concluded in little blue bells.

There's something melancholy about carrying around large and easily breakable bottles of alcohol when starting off on vacations. That's why a new invention called "solidified alcohol" has been welcomed with enthusiasm. The alcohol is contained in a little can.

The little stoves at the Owl drug store that are run by this canned heat are in two sizes. One is a little round tin inside a tripod and the other is a larger one with a handle. The little stove is ready. When the water, or the milk, or the chocolate, is hot enough, by shoving the cover over the flame the light is out again.

One of these miraculous affairs comes equipped with a tray that prevents stains beneath the stove. Unless you like to leave spots wherever possible on tables.

Don't be amazed when your family friends enter your house draped in skirts of jockeying, exactly like those enveloping the mattresses where you slumber each night. For striped fabrics are scarce and people have fallen back upon any variety they can find. Kahn's striped materials include variety voiles with lines of bright color flecking them, and still others of rose with wide black bands of startling effect. There is also a new fabric like alpaca in texture and of soft gray striped in pastel blue or lavender or yellow. This seems designed for women who want to be in the swim but who do not want to draw attention to the fact that they passed sweet 16 a long time ago.

During the sales now you can find any number of attractive cotton patterns—copied from foreign designs—that will make little frocks at much less than you can get them ready made.

One way of madly celebrating the centenary of William Shakespeare is to purchase various and sundry records of his works set to music and

songs by Caruso and Gaski. At Kohler & Chase's they are selling excerpts from "Hamlet." "As You Like It," "Julius Caesar" and other dramas to admirers of the bard. "Hark, the Lark" of course would never be neglected, and "Who Is Sylvia?" is there quite as inevitably.

If you want to pay double tribute to William S. you can wear an Elizabethan costume whilst listening to his lyrics warbled out of a box.

Lovers of spats, new pumps of tan Russia calf and of white calfskin are at Rosenthal's to be worn with separate uppers. All the spat pumps now are especially planned for this purpose, having long ramps and no sign of buckles or buttons to mar the fit of the spat. You may now choose from black patent or gummat, from bronze or tan, from white calf or white canvas, and get an original effect with the uppers. Chartreuse or white spats are excellent with the tan pumps and white ones rimmed in black make white pumps picturesque.

The moment has arrived when persons living in houses feel impelled to drop the sticky-looking draperies of winter into the sea, and calling in a woodchopper to attack the heavy furniture. That is the time to purchase much wicker and romantic cretonnes and white shoes. These three things have a surprising curative effect.

Among Canwell's latest woven novelties are extremely artistic jardi- from India. Wicker, wicker, wicker, other joyous inventions that, being near the wide fireplace of a log-burner country, if she hasn't one already, would doubtless appreciate a gift of wicker baskets and cat baskets, wicker and wicker, wicker and wicker, adjuncts to the room furnished in needs. But one of the most acceptable new things is a Japanese oval rug of dark braided straw stenciled in subdued Oriental designs. These at the most are six feet long and they are perfect for the veranda.

Corduroy combined with white jersey cloth to make a sport coat at S. N. Wood's. This model, white and fully to the knees, ended in a foot deep border of bright Copenhagen blue and blue cuffs. At the back a huge sailor collar, of the corduroy banded with white seemed trying to find out how far it could safely go, as collars have a way of doing this spring.

Kimono sleeves were distinctly in evidence on a smart suit of deep bright Belgian blue at this shop. But these sleeves ended in cuffs with double-flaring circles and down on the front of the coat hung most un-Japanese pockets caught in an interesting fashion with interlaced circles of cloth and blue cuffs. At the back a huge sailor collar, of the corduroy banded with white seemed trying to find out how far it could safely go, as collars have a way of doing this spring.

Though the millennium has not yet come this way, a sale of vacuum cleaners has, just in time for the annual spring attack on any grime your neighbor has been suggestively crying every time she drops in inopportunely. The sale has been announced by Brenner's for the coming week—this week of wear much warmer for any slave to operate a broom in.

This particular variety of mechanical household is equipped with all manner of attachments with which one demonstrates how to annihilate the dust in the corners of signs or any other place. There is a brush as well as an extension rod, not to mention other things very appealing to a sanitary point of view. Another advantage of it is that you can be sanitary on the installment plan—so much a month—instead of saving up money and much of wear of immaculateness at the same time.

For the nursery are shown in Marymont & Upright's fancy work department the most delightful quilts and crepe quilts, done up in the package ready to be converted by the housewife with clever fingers into regular landscapes. Instead of embroidering designs on the unbleached muslin surface, you cut out little maidens and personae and trees

from pink and green and blue material and then sew it on according to careful printed directions. This kind of a Kate Greenaway set, called "Colonial," however, is intended to please a child, but there are similar sets stamped with morning glories for older persons.

The bungalow sets that charm young hostesses now come with special holders of curious shape for hot rolls, for corn and for hot dishes, and for everything folds over perfectly. Bridge aprons, adorned by high school and college students, come in designs to match and with amusing little pockets right in front.

New striped "sport" ribbons and a painter who illustrates the modes in a series of views along the outside of the store are novelties this week at Whitthorne & Swan's. The ribbons are of every shade stripe alternating with inch-wide bands of white. The painted landscapes are slapped on what the crowd blocks the sidewalk below in an effort to discover what the freshly-gobbed-on sign in white is about to wave at. When the decorator wears of showing what mildy wears at the seaside and how she appears in her boudoir, she comes down and gracefully paints a hat for a live woman in the audience.

Sometimes he goes so far as to give the hat away.

Awning cloth skirts and ticking skirts, all ready made, and of colors ranging from child concerns to white and black. These skirts, under the name of "Maiden's Choice," are better, so 'tis said, than the skirts of the past, and are more becoming to the female form than any other violent summer outfit.

These fabrics will resist bushes and cloth and are most attractive to gaze upon. With them may be worn the ready-made Norfolk middie to match, or the new poplin jackets of gay colors and ample length.

If you've put off investing in one or more casseroles that you simply know you need to cook and serve food in—tomorrow is the last day of a sale of fifty by Jackson's furniture store at a special price that cannot wreck you. This particular dish is almost twice as wide as it is deep and is accompanied by a nickel-plated cover of much glittering usefulness, equipped with two round black handles at the sides.

Another lure for the shopper is an ample aluminum saucepan, also of special attractions, including price. And saucepans must be had.

Even the fair one who ordinarily looks hopeless in a lingerie store can find some delectable creation to suit her "type" this summer. And on such days as these she is certainly surrounded on all sides.

Among the pretty waist frocks at the Greater Oakland one of white voile that could be worn by almost any person—thin or plump, tall or tall—happened to be fashioned in the Russian blouse mode with a deep sailor collar and a much pleated skirt through the volle ran trills of little green valvies and coral stripes that entwined the front effect, and down the front of the frog ran many little buttons covered with the colored fabric. Sport suits with striped pongee Cossack blouses and tailor suits of black taffeta bordered with light plaid skirts, offered other hot weather solutions to the shopper.

Pongee is high favor, by the way, for outdoor costumes. But it is seldom used without a higher color. Often the blouse is striped, or striped model at the Torgers, had simply a skirt of the pongee and a Russian blouse of the most intense royal purple crepe. A sailor collar of pongee strapped with purple, a pongee skirt and little bands of pongee around the upper edge of the cuffs completed the blouse except for the

SEVEN ACTORS IN ONE AT ORPHEUM

Hugo de Vries in "A Case of Arson" Amazes His Audience.

By ADDISON SCHUSTER.

An act which, essentially, is a novelty and yet one that has won the serious dramatic review, is the one offered by Henry de Vries at the Orpheum this week. De Vries, in a little less than an hour, plays seven distinct roles without detracting from the unity of the piece and the opportunity for successful character studies with wonderful effect. The story is that of a man accused of arson and the opportunity for successful character studies with wonderful effect. The story is that of a man accused of arson and the opportunity for successful character studies with wonderful effect.

A LAUGHING COMEDIENNE. Lady Fair, a little less than an hour, plays seven distinct roles without detracting from the unity of the piece and the opportunity for successful character studies with wonderful effect.

When the vicissitudes of married life cease to furnish material for the vaudeville jokes, then there will be one who is drawing the pearls of laughter by telling the husbands and the wives how much better they would be had they never married. And the husbands and wives—and the others—made Andy come again and again, just as if they liked it.

ORIENTAL TEAM. A song and dance skit in which a Chinese man and maid show knowledge of the accepted Oriental style of entertaining and which is made really pleasing by the Oriental charm of Miss Dong Kong Gue, is a highly successful act. The Carpas Brothers offer something new in balancing and Claudia Albricht and Miss Radolph are heard in grand opera selections.

Of considerable merit and of a varied interest is the bill which, in received as one of the season's best. That the moving picture lovers may not miss the thrills they see on the screen there are offered a number of new acts. William Farnum as the central thrill-purveyor.

Suffragists Plan Seattle Campaign

PORTLAND, Ore., May 1.—Twenty-three eastern suffragists were scheduled to carry their campaign to Seattle today after spending a rousing Sunday in Portland.

Half of the committee which welcomed the suffragists yesterday were women. Most of the day was spent in sight-seeing and entertainment. Not until evening did the visiting suffragists settle down to the business of boosting the Susan B. Anthony League, the national suffrage.

Governor Withycombe addressed the campaigners at the night meeting in the public library.

PHARMACISTS TO MEET. Alameda county pharmacists are taking an active part in the arrangements for the open meeting of the San Francisco branch of the American Pharmaceutical Association to be held on Friday evening in Assembly hall, 244 California building, San Francisco. Captain Wayne, of the medical corps, United States Army, will speak on "The Pharmacist and National Preparedness."

WOULD SELL SYSTEM. SAN FRANCISCO, May 1.—The Imperial Telephone Company, operating in the Imperial valley, and the Pacific Telephone and Telegraph Company, which has been running it, jointly filed an application with the state commission today for authority for a sale of the system. The Imperial company is to sell to the Pacific for \$185,643.87.

These dresses are extremely simple to put on, quite loose and straight in line, and useful for many occasions.

Short-sleeved with no cuffs at all are new sport shirts designed particularly for feminine persons thinking of summer vacations. Those at Moneyback Smith's come in satens, and are as well as striped pongee, and they are all with gay Windsor ties, either of vivid plain colors or sport striped gorgeously.

Nile green taffeta formed the base of a little semi-party dress at Cosgrave's. This model was distinguished by long sleeves of white Georgette crepe and a deep fold of the green taffeta around the bottom of the skirt, which, it happened, was fashioned of a single deep flounce of silk lace.

White and black stripes of any width exceeding an inch continue to be highly smart. The coal blouse of a costume at the Eastern Outfitting Company showed an interesting use of these stripes by a waist line pleated in a narrow gold black piece in the back. Under the arms it ceased and two long straps ran around the front to be loosely folded over. A white jersey skirt fell under this long catlike waist.

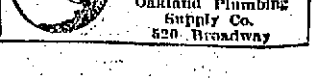

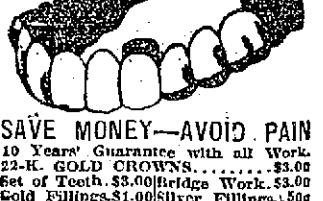

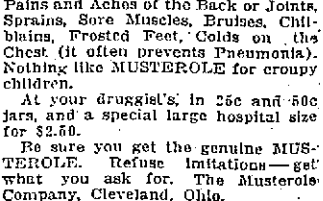

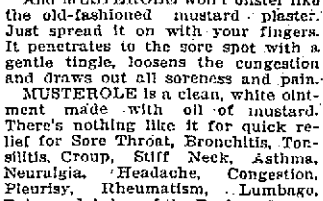

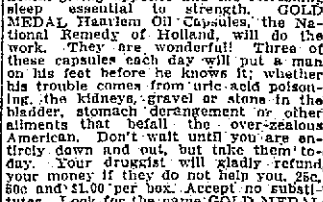

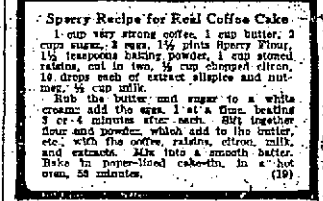

SICK HEADACHE. This disease is nearly always caused by a disordered stomach. Correct that, and the headache will be avoided. Mrs. A. L. Luckie, East Rockwood, N. Y., writes: "I was a victim of sick headache caused by a badly disordered stomach. When I took Chamberlain's Tablets three years ago in a few weeks' time I was restored to my former good health. For sale by Osgood Bros. Drug Store, Advertiser."

Freight Congestion in East Nears End

The first hopeful sign of quick relief of the car situation came yesterday in the following wire to President William Sproule of the Southern Pacific Company from Director of Traffic L. J. Spence in New York:

"A good deal of westbound traffic has been diverted from the Sunset Gulf route because of embargoes of eastern trunk lines at New York. All embargoes against carloads and less than carload freight coming to New York routed via the Morgan line, have been withdrawn."

In effect, this means that the freight held up in the eastern territory is moving again and that traffic in the congested territory is getting back to normal.

Dr. Goodnight DENTIST

1224 Broadway

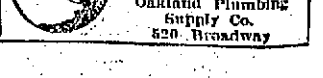

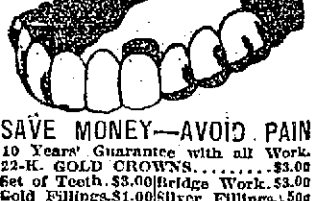

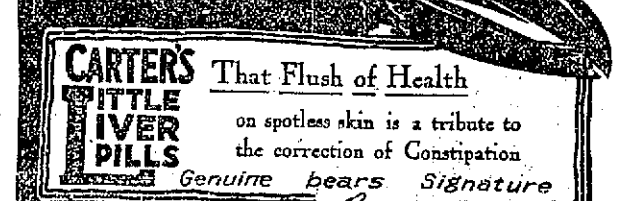

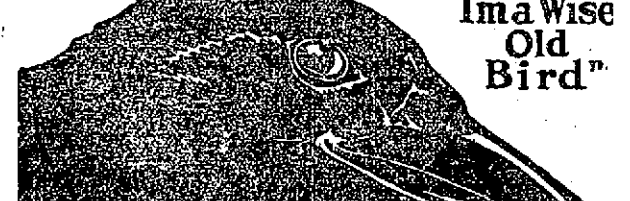

Fasten the name and location in your mind. IT IS WORTH WHILE. If you have malformation of the mouth or are tired to fit with artificial plates, GIVE ME A TRIAL. I will fit your mouth to a mathematical certainty. Two or three good trials is all that is necessary to make you a set of teeth without pain, that look as natural as your own.

I do as I advertise. A trial will convince. Examination and Estimates Free. Painless Extraction. No Charge for Extraction When Plates or Bridge Work Are Ordered.

ALL WORK GUARANTEED. HERE ARE THE PRICES:

\$15.00 Plates \$12.50 Porcelain Crowns \$5.00
\$12.50 Plates \$10.00 Bridge Work \$5.00
\$10.00 Plates \$7.50 Porcelain Fillings \$4.00
Plates as low as \$5.00 Gold Fillings \$1.00 up
Gold Crowns \$5.00 Plates Repaired \$1.00

MONDAY, MAY 1, 1916.

TOMORROW'S PRIMARY.

Tomorrow will be a day of great importance to the Republicans of California. It is Presidential primary election day.

The TRIBUNE has consistently advocated harmony of action when Republicans and Progressives gather at Chicago to name Presidential candidates. We have full confidence that the delegates will be actuated by patriotism, good judgment and common sense, appreciating the grave responsibility resting upon them.

Concessions must be made by both parties and individual preferences set aside. Republicans of California who have been loyal at all times are entitled to a voice in the Chicago convention of Republicans.

Progressives have selected delegates and will be represented at the convention of their party. Republicans have not attempted to interfere in the selection of Progressive delegates.

At tomorrow's primary there is but one Republican ticket. It was openly named, and is sponsored by the members of the State central committee and various county central committees throughout the State, the official and legal representatives of the Republican party. They were duly selected in accordance with the provision of our election laws. A platform embodying sound Republican principles was adopted.

The so-called "United" ticket is falsely labeled. It is a second Progressive ticket.

Its sponsors well know that with an honest primary law that would permit only Republicans to vote this ticket, it would have no possible chance of success.

This is said without reflection upon the delegates upon this ticket, with whom THE TRIBUNE has no quarrel.

But the "United" ticket was named by a small coterie of "invited" conferees, and in the interest of a single individual, who recently registered as a member of another party, and who seeks to control delegations from California to both the Republican and Progressive conventions.

The TRIBUNE will support the nominee of the Republican convention.

Will this individual and a majority of the delegates he has chosen agree to do likewise if the Progressive convention refuses to endorse the Republican nominee and puts a ticket of its own selection in the field?

The national situation is rapidly crystalizing. Probably the result of the California primary will have but little effect except possibly to retain this commonwealth in the category of political freak States, from which roster even Kansas has now been removed.

WHERE MEN COUNTED.

Within the oldest cradle of civilizations, the valley of the Tigris River in Mesopotamia, an old style war drama has been enacted with old-time results. Brought to the verge of starvation after 143 days of siege that cut off all food supplies the British army under General Townshend was forced to surrender to the Turks at Kut-el-Amara. Ten thousand troops capitulated and one British campaign came to a disastrous end.

This was the only campaign in the present great war in which either side was in a position to resort to what has in the past been known as "strategy." General Townshend made an impetuous dash up the Tigris with the apparent object of diverting Turkish forces from the Gallipoli peninsula. He got as far as Ctesiphon, fifteen miles below the ancient capital of Bagdad. Having neglected to keep his communications with his original base guarded, he found himself surrounded on three sides and when he began to retreat discovered a Turkish wedge had been driven in behind him at Kut-el-Amara. Since then the Turks have suc-

cessfully prevented relief from reaching the besieged army and its starvation was only a matter of time.

This is a dismal end for an army and its commander. But there is that about it that elevates it above the warfare of Europe, where the fighting is reduced to a matter of mechanics and chemistry; where the soldiers never see their enemy; seldom know the exact location of the enemy. It can be said of the defenders of Kut-el-Amara that they showed personal heroism and with a knowledge of the effect of their individual efforts. In the European battlelines mechanical "eyes and ears," sufficient to make surprises or unknown movements of troops impossible, make the soldier an impersonal quantity. The Mesopotamia fiasco shows the shortcomings of the old style of warfare and the world may never see another effort like it.

PARTISAN ADVANTAGE FIRST.

President Wilson has put the prod under Democratic members of Congress and indicated his desire that they expedite the enactment of a few of the administration's pet measures. He wants them got out of the way ahead of the more urgent measures for national defense, revenue, and the regular departmental bills.

Obedient to his written instruction the Democratic caucus has decided to support the Philippine independence bill, with the Clarke amendment providing for complete American withdrawal in four years. The caucus vote was not unanimous, but indications are that obedient Democrats, in combination with the Republican members who are for one reason or another in favor of scuttling the Philippines, will suffice to pass the bill.

The President also wants early consideration of the government merchant marine bill, a measure conceived by Son-in-law McAdoo and disapproved by nearly every commercial organization in the United States. It is planned to appropriate fifty million dollars of Panama Canal bonds to start this commercial scheme of the Government and the administration obviously is anxious to initiate its organization before the November election, in order to get early benefit of the national political machine it inevitably will create. The general agricultural bill, with its rural credits scheme, and the fifty-million dollar flood control bill are also interesting the President.

An attempt to delay action on all these purely administration projects will doubtless be made by the Republican majority. If parliamentary obstructive tactics can be brought successfully to bear upon them there is no telling when Congress will reach consideration of the measure of really urgent national importance. The hint already has been given out that gag rules limiting debate on the partisan measures will be enforced should the minority try any filibustering tactics. If the Democratic majority works together in the House it will be able to use the time limit and force scuttling of the Philippines, passage of the shipping bill and all the other political schemes of the administration.

PACIFIC FREIGHT RATES.

The report from Seattle to the effect that Japanese steamship companies have raised freight rates to the Orient from fifteen to twenty per cent must be set down against the La Follette seaman's bill. Were it not for the monopoly which the forced withdrawal of American vessels placed in the hands of Japanese ship operators such a thing would not have been impossible. We do not mean by this that rates would not have been advanced during the present scarcity of merchant vessels, but Japanese ships, subsidized by their government, would not have been in a position to dictate trans-Pacific freight rates.

The TRIBUNE predicted several months ago that Japanese lines would boost freight rates at will and the American producer and consumer would have to pay the cost. This paper also printed exclusively statements from Japanese ship owners and government officials to the effect that rates would be adjusted just as semi-government shipping companies thought best. We also told how cargoes to and from Japanese ports would be given preference in a crowded ship, and that shipments to and from China often would be refused.

It would take them some time, said the Japanese, to realize that the American government had really placed such power in their hands, but if it proved true, rates would certainly be advanced. After due pinching, rubbing of eyes and knocking on wood, Japan's shipping interests have decided that the American government was really foolish and have started to reap the fruits of our folly in earnest.

For underestimating the credulity of the "gingoes" the Carranza family displays a hardihood that is nothing short of remarkable. After introducing the fictitious story of Villa's death to the extent of claiming that the body of the bandit had been exhumed and was enroute to headquarters for identification, Nephew Carranza forgot his cue and stepped off the stage. Now that the chief of staff of the United States army has journeyed from Washington to Juarez to confer with the war secretary of the de facto government, Nephew Carranza appears again with the claim that Villa is dead.

NOTES and COMMENT

Unabashed observation from the Nevada City News: "We heartily approve of the short skirt. It is unsuitably sanitary and remarkably refreshing to the masculine eye."

The man who ran off with another man's wife and wardrobe butted into more trouble than he evidently anticipated. But perhaps he had no way of knowing that the wardrobe was so valuable.

The Lakeport Bee declares that the action of the Republican central committee of Lake county in endorsing the "regular" list of delegates will receive hearty endorsement by the voters.

Golden Gate park now has three courtyards, said to be the only specimens of the genus in America. There are plenty of specimens of other genus, however.

Ex-Mayor Schmitz recalling Mayor Rolph, in the light of the last decade of municipal history, is a proceeding that ought to promote widespread gaiety.

Stanford has put the ban upon public initiations by the frats. And freshman-sophomore "fights" are to be regulated. Educational matters are receiving close attention.

W. J. B. and Brother Charles are in due training to start another party. All the old parties are lacking in appreciation and reverence, and it is time to start a new crusade.

Mrs. Mary Nicholas-Smith-Barnet-Seib is to cut off the last link through amputation. Anybody who propounds the old question, "What's in a name," in this connection might be answered, "A good deal."

This highly inflammable expression is found in the Grass Valley Union: "Good music sends forth its sweet influences, reaching down even into the Slough of Despond, to lift up the dejected soul."

It is predicted there will be no boycott after the war, referring to international relations. It is to be hoped not. The belligerent peoples ought to have had fight enough to satisfy every craving.

A sister of Sir Roger Casement is to appeal to President Wilson in behalf of her brother. That is quite the way. People start something with their own country and then petition this country to help them out of the consequences.

The important news comes from Sacramento that California matches are superior to the Japanese brand. The fact has been demonstrated officially. Some matches are said to be made in heaven, but those made in the next best place stand the test.

The Colusa Sun says it is this way: "In a country like ours—and this way is the only one like itself—the grandest of men must yield to the humblest and secure his ballot, or else he cannot step up above his fellows in political position and power."

The Goldfield Tribune gives currency to an idea that is more or less generally entertained, to the effect the Republican Presidential nominee may depend a great deal upon the outcome of things that are now pending in Washington.

"Unless all signs that go to aid in forming political judgment fail," observes the Hanford Sentinel, "the pendulum in California is going to swing far back this year and the old line Republicans will win a sweeping victory at the polls on Tuesday next."

This quite wholesome advice is given by the St. Helena Star: "Republicans of California were disfranchised four years ago. Guard against it this year by voting for the regular Republican Bordwell-to-Chapman ticket for delegate to the national convention."

The Bakersfield Californian (Democratic) says that several weeks ago it looked very much like expediency would influence the Republican convention to nominate Roosevelt, but that a good many things may happen to a man in several weeks, particularly to a man who talks a great deal. The Californian is kind to put its ear into our stream.

SPIRIT OF THE STATE PRESS

All women are beautiful. Some, however, are more so than others—including yours, and ours.—Nevada City News.

Col. Ed. Collier informs Col. Ted Roosevelt that "all hell can't stop your election next fall." Possibly referring, thereby, to the national Democratic party.—Riverside Enterprise.

Johnson sheets are still busy euphemistically explaining the porch-climbing methods of the administration forces under the "United" Republican banner.—Hanford Sentinel.

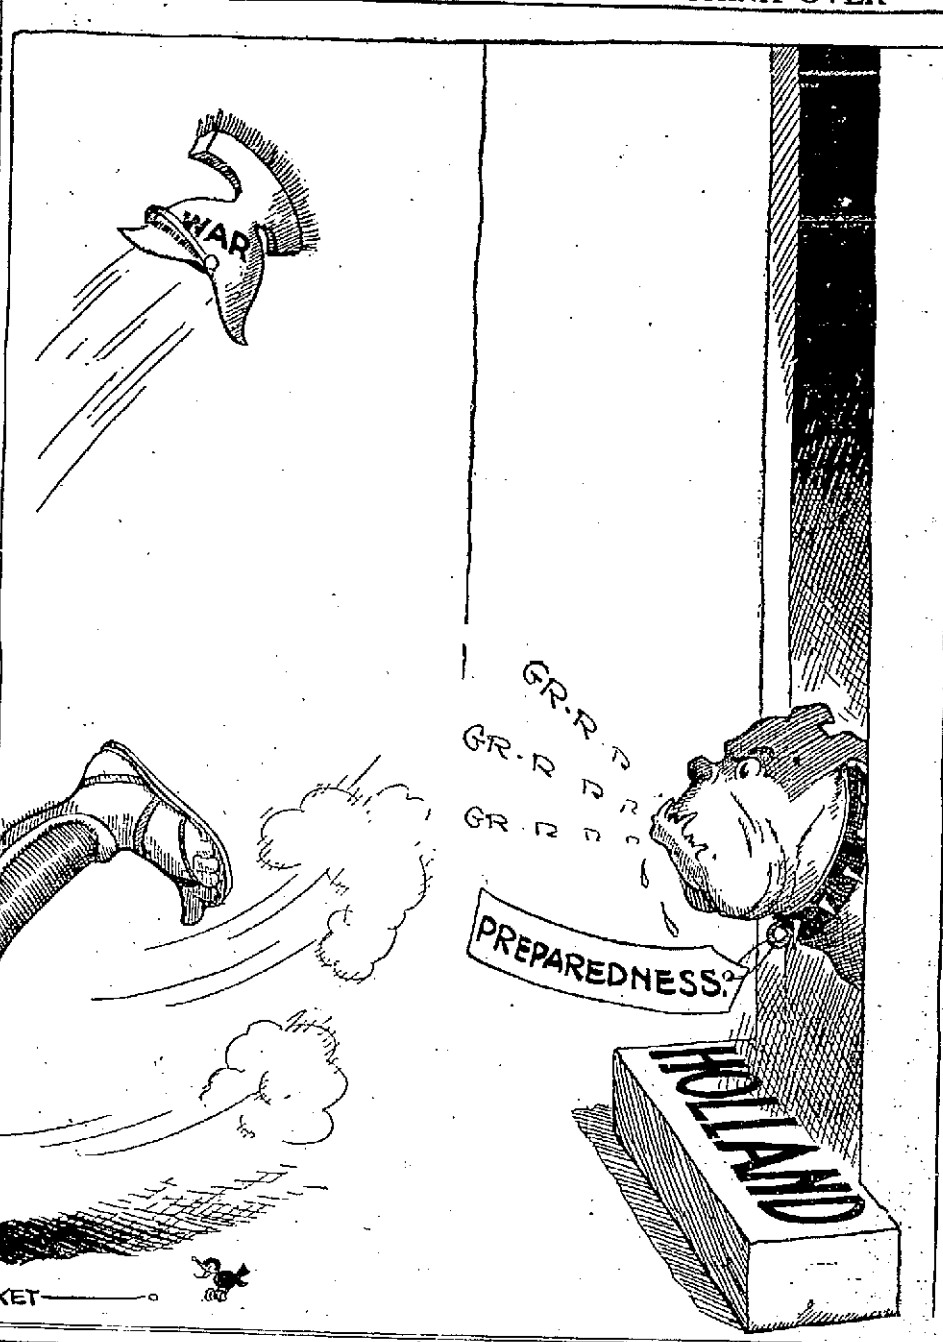

"Senator Phelan and Congressman Kent may have gotten right on lemons, sugar, olives, prunes and pears," says the Chico Enterprise, "but may the Lord have mercy on their souls if those garden seeds don't come up."

It is also somewhat singular that the men who decided they could not reform the Republican party by working with the Republican party, and within it, now declare they are the sole hope of the Republican party.—San Francisco Star.

We cannot say that all the people of Tracy are satisfied with the results of Monday's election, but it is safe to say the majority are. It is over at any rate, and the time has come to forget it and turn our minds to other things.—Tracy Press.

And didn't that quiet, modest, unassuming little gentleman from Toledo make some hit at the Chamber of Commerce luncheon yesterday noon? And isn't Riverside going to be for that said gentleman hereafter, in the future and for all time? John Willys—this town would love you if you made 44x.—Riverside Enterprise.

SOMETHING FOR THE PACIFISTS TO THINK OVER

TIMELY ANECDOTE FROM THE PHILIPPINES

In 1914, the Philippines for the first time obtained control of both chambers of their legislative assembly. They immediately proposed to cut in two the appropriation for health and sanitary work. In 1903, when the Americans began cleansing the Philippines, these islands enjoyed a preeminence for disease even in the Orient. Cholera, smallpox, the plague, beriberi and other scourges raged undisturbed. The Americans, under the direction of Dr. Victor C. Heiser, whose work among the lepers was recently described in this magazine, have driven out these diseases and made the Philippine islands even more sanitary than the United States.

Yet the Philippines, as soon as they obtained control of their legislative machine, started to cripple this work. The loud protests raised by resident Americans did not impress their apathetic souls. Dr. Heiser protested and protested, with little effect. Finally he demanded the right of addressing the assembly. Reluctantly the Filipino leaders told him that he could have twenty minutes. Dr. Heiser appeared on schedule time, but he did not talk for twenty minutes; he talked for three days. He stopped occasionally for meals and a little sleep; for the rest of the time he entertained the assembled lawmakers with descriptions of Manila and the Philippines as they existed prior to 1903 and of the same places at the present time. At first his auditors were uninterested, almost hostile. They sat silent and emotionless, perhaps somewhat bored, apparently persuaded that nothing the

speaker could say would affect the situation. But Dr. Heiser, after talking nearly a day, scored his first point. Before the reforming Americans came the Philippines had their own system of handling the insane. They used to tie the poor creatures, like dogs, to stakes under the Philippine houses. Sometimes a flood tide rose, or a five swept over the light material districts; occasionally, but not invariably, the people remembered to unitch the miserable lunatics. The Americans have abolished this system, and erected beautiful, sanitary asylums for the insane.

Dr. Heiser called the Assembly's attention to the fact that their budget cut down the appropriation for the care of the insane. If it passed, he would have to let loose several hundred lunatics in the streets of Manila. "This will be necessary," he declared, "since there will be no money to provide for them. These lunatics, you know, are of a particularly dangerous kind; there are many murderers, incendiaries, and the like among them. But I shall have to set them free. And I shall put a badge on each one, inscribed, 'Set free by the vote of the Philippine Assembly.'"

The uninitiated brown men showed their first signs of life.

"That would be inhuman!" they shouted.

"Of course," replied Dr. Heiser, "but it will be your inhumanity, not mine."

He recounted how the Health Service had collected and isolated about 6,000 lepers at Cullion. But the budget cut

down the appropriation for the leper colony. What could he do? He should have to let loose a large number of lepers, who would wander about as of old, infecting thousands more every year.

"Yet you Filipinos," he said, "demand your independence and say that you are capable of self-government and say that you are capable of self-government. Is this the way to convince the American people that you are?"

Dr. Heiser's force and eloquence saved the day on that occasion. The Assembly, after listening three days, arose and requested that he himself write the health section of the appropriation bill.

This episode has a great bearing upon the pending Philippine situation. According to reports from Washington, President Wilson is prepared to sign the bill giving the Philippines independence after four years. Secretary Garrison resigned partly because he regarded this legislation as absolutely unsound.

The little anecdote pictures what will almost certainly happen as soon as the Philippines gain their independence. Health, sanitation, education—all the higher stages of civilization have been imposed from above. The Filipinos have proved apt pupils, but they will not do those things themselves—and they will suffer them to fall into neglect as soon as the guiding hand is withdrawn. There will be no Dr. Heiser, then, to persuade them against their will. Smallpox, plague, cholera, and leprosy would once more rage over the islands, and in their wake social and political chaos, and intervention.—from World's Work.

OUR CITY BEAUTIFUL.

(Written for THE TRIBUNE.)

Our city, Oakland, by the bay,

And stretching itself for miles away;

Kindly the zephyrs of ocean's breeze,

Laden with warmth from southern seas,

Anchor themselves upon thy breast:

No fairer city than this of the West

Dotting the shore of our sunlit bay.

Ocean and bay at Golden Gate meet

Under the tread of Poseidon's feet;

Rising and surging waters there greet.

Commerce and traffic around the bay

Increase in volume day by day;

The inner harbor, as a settled fact,

Yarding its shipping quite intact.

Blossoms of beauty in our gardens

Even Italy may not excel;

And wayside parks along our streets,

Urban sun-glades of sylvan retreats,

Turn innocent sons of tired mankind

Into contentment there to find;

For all of us are prone to the wild,

Under the culture is Nature's child.

Laureate city! We love thee well.

Pay B. M. Lucas.

DISCORD IN THE BAND.

The democratic bandmaster, Colonel

Watterson, and the player of the first

Watterson says in the Courier Journal

that the Henry Ford is only part and

parcel of the Wall Street conspiracy to

nominate Mr. Roosevelt in the Republi-

can Convention, while the World insists

that the Ford Silver has broken the big

attack into match wood. Colonel Wat-

tersson has been studying these things longer

than the editor of the World, and his

view is likely to command more cred-

ence, but the World is so certain it is

right that it is now calling on the Re-

publicans to nominate Mr. Wilson!—New

York Herald.

THE JESTER.

Refuses to Sue Railroad.

There had been an accident on the

worst railroad in the United States.

The sole survivor of the wreck was sit-

ting up in his hospital cot swathed in

bandages.

"I suppose you're going to sue the com-

pany for damages," said the friend at his

bedside.

"No," said the damaged one. "I shall

do nothing of the kind."

"Why not? You're certainly got a clear

case against them."

"Clear case nothing! Any intelligent

jury in the world would bring in a ver-

dict of contributory negligence. I ought

to have known better than to travel on

the blamed line."—Philadelphia Ledger.

CUTTING DOWN FIGURES.

To the Editor of The Tribune;

During the recent visit of the woman

suffrage leaders to San Francisco they

threatened the political parties with the

vengeance of 4,000,000 women voters in

the full suffrage states.

In 1915 the whole number of voters in

those states was only 2,553,443, and of

these only 1,514,643 voted, or 45 per

cent of the total qualified to vote.

Granting that half the qualified voters

were women, instead of 4,000,000 voters

of that sex there were only 1,262,321.

The threat of 4,000,000 female voters,

to force the passage of the federal suf-

frage amendment by Congress, introduced

by a Senator and Representative of the

two Mormon states of Utah and Wyom-

ing, will not greatly influence the votes

of patriots in Congress who believe in

the constitution, which properly leaves

suffrage to the states.

JNO. P. IRISH.

Oakland, April 29, 1916.

HER CHARM.

She was not very beautiful.

Not even very droll.

But yet she won men's hearts;

For she could cook to beat the band,

And sultana ate from her fair hand

When it held cakes or tarts.

—Richmond Times-Dispatch.

Time for Caution.

An elderly man from the country was

at the head of a line of arrivals at a

hotel, and after signifying his acceptance

of the rate offered him was invited to

sign the register. He consumed so much

time in this that the clerk became im-

patient.

"Just sign your name, please," snapped

the clerk. "The other guests, too, would

like to register."

"See here, young man," exclaimed the

old man, "don't you try to hurry me. I

don't sign nothing I ain't read carefully."

—New York Sun.

The Minister's Temptation.

A young couple went to a minister's

house to get married. After the cere-

mony the bridegroom drew the clergy-

man aside and said in a whisper:

PAROLE LAW OF STATE IS GIVEN PRAISE

Edward Whyte Justifies
Its Operation by
Statistics

Thousands of Men, He
Says, Saved to
Society

Results of the operation of the California state parole law are embodied in data gathered by Edward H. Whyte, of San Francisco, state parole agent, and given out for publication today. He says that if the authorities permitted publication of the names of the many paroled men who have resumed their places among the reputable citizens of California, the people of the state would be amazed at the fine showing and proud of the result. Among the findings of the investigation made by Whyte are the following:

A total of 3635 prisoners in California paroled prior to January 1 of this year (1916), only 128, or 3.5 per cent, violated their paroles by the commission of new crimes. Other violations during the percentage of violations up to 21 per cent, consisted of breaking of some rule of the prison board, such as drinking intoxicating liquors, leaving place of employment without permission and the like.

Aside from the personal good accomplished in returning several thousand prospective criminals to law-abiding and industrially productive citizenship, probably the most important result of the California parole law has been the reduction of confirmed criminals in state prisons.

Statistics covering the three decades from 1880 to 1910 show the following results:

In 1880 the percentage of confirmed criminals in California state prisons was 22.3, and the percentage of first-termers was 77.5.

In 1900 the percentage of confirmed criminals had grown to 25.7, while the percentage of first-termers was reduced to 74.3.

In 1910 the percentage of confirmed criminals fell 18.1, while the percentage of first-termers reached 81.9.

The gradual decrease of confirmed criminals percentage still is going on at California prisons.

So far as prison management enters into this remarkable result, Whyte says, there are just two causes—improved prison management and paroles.

The total earnings of prisoners while on parole up to January 1, 1916, amount to \$2,016,871.02, and the savings in that period amount to \$464,441, and this is held by Whyte to prove that the parole system is a success as it makes it possible to transform men who have been convicted of crimes from a cost of \$200 a year each to industrious men, each earning for himself, on an average of \$200 a year and to reimburse him with his family.

CHANGED TREATMENT.

In conclusion Whyte says: "Too many are inclined to believe a sentence to a state penitentiary changes the nature of a sentenced man and that the man loses the attributes of humanity that forever thereafter he is a thing apart, a beast to be dreaded. Therefore the fair treatment of a man is generally withheld from a prisoner. Experience has shown that this is a grievous error and that this attitude has worked great harm.

"Human nature is not fundamentally changed by the bestowal of the greatest honors nor is a man radically changed by imprisonment. When the debt to society has been paid by imprisonment, would it not be fair and reasonable for us who have been more fortunate to recognize the settlement and then do all in our power to encourage the unfortunate to again take his place among men?

"A convict, as such, is of no value to himself or to the state. If he remains in prison too long, long enough to break his spirit and ambition—he is sure to remain a charge and menace to the state for all his life. If

Housewives to Hear Mrs. Vaughan
Expert to Lecture at Auditorium

MRS. KATE B. VAUGHAN, BETTER-FOODS, BETTER-HOMES LECTURER, WHO WILL HAVE CHARGE OF TRIBUNE HOME ECONOMIC COURSE

Tribune Series of Discussions on Domestic Economy Free to Women of City

The Better-Foods, Better-Homes lecturer who has been secured by THE TRIBUNE to have charge of the second annual Home Economic course for Oakland housewives is Mrs. Kate B. Vaughan, famous Southern cook, expert cake baker and talented cake decorator.

The women of Oakland are greatly pleased with the announcement that Mrs. Vaughan is to make a second visit to this city and are already planning to make the most of this opportunity and give up as many afternoons next week as possible for Mrs. Vaughan's lecture and cookery course.

This series of lectures, each one complete in itself, deals with home-making in an educational and practical manner. Mrs. Vaughan's program for this season is entirely new and promises to be finer and more

interesting than the one presented by her last year. It is the aim of her course to encourage and inspire women to be good housekeepers and to tell what constitutes good housekeeping and the cooking, and impart many helpful secrets for success along both lines.

Her lectures and cookery lessons will be given this season in Auditorium opera house and they are to be entirely free. Every woman in the city interested in good cooking and in happy homes is invited to attend. As was the case last year, there will be no admission charge and nothing will be offered for sale. It is an educational treat offered by Oakland who so thoroughly enjoyed Mrs. Vaughan's visit to this city last season.

WHAT IS DOING TOMORROW

Civil Service Board meets, evening.
Merchants' Exchange meets, evening.
Whist party, Sacred Heart hall, evening.

Rev. Thomas Barry lectures, St. Mary's church, evening.

Motor power show, auditorium.

University recital, California Hall, U. C., 8:15 p. m.

Vernon Choral Club concert, Claremont school auditorium, evening.

His hope of parole and reformation is kept up it is a powerful incentive to good conduct and endeavor. The very many instances in which paroled prisoners have "made good" in every sense of the term, is conclusive proof of the great value and success of the parole system."

WHAT IS DOING TODAY

Supervisors meet.
Fitchburg Social and Improvement Club meets, 722 East Fourteenth street, 8:15 p. m.

Berkley Owls' Dance, Masonic Temple, evening.

Captain Tenney Ross inspects U. C. Cadets, drill field, U. C., morning.

City Council and Park Board meet, evening.

Alameda County Nurses' Association (theater party, Orpheum, evening).

Rev. Thos. Barrett speaks on "Divinity of Christ," St. Mary's church, evening.

Carpenters' Union joint installation, 761 Twelfth street, evening.

Catholic Ladies Aid Society whist, St. Anthony's hall, Sixteenth avenue and East Sixteenth street, evening.

Orpheum, Henri De Vries and vaudeville.

Pantages, Little Lord Roberts and vaudeville.

Franklin, Dorothy Gish and Owen Moore.

Oakland, John Barrymore and Olga Petrova.

Auditorium, Motor Power Show.

Idora, Forman's band and beach bathing.

Boy Fibs for Dime; Woman Is Out \$8

"I dropped this behind the counter and just found it," explained a boy whom Mrs. A. M. Menefee, 866 Sixty-first street, found behind the counter of her stationery at the Piedmont key service station. The boy held up a dime.

Mrs. Menefee accepted the explanation. Later she "brought up a purchase" on the cash register and discovered it had been loused by the youth, who had taken \$8.

MOTORISTS ESCAPE IN 5 ACCIDENTS

Occupants of Machines
Uninjured in Each
Instance

Traction Company Car
Also Figures in
Wreck

Six automobile, motorcycle and street car accidents occurred in Oakland last night and yesterday afternoon without anyone being injured. In two instances the escape of the drivers of cars was extraordinary and the automobiles were badly smashed.

Rudolph Kretz, 2345 East Twenty-first street, and O. W. Smith, 417 Twenty-third street, driving automobiles, came together in a head-on collision at 2 o'clock this morning on Twelfth and Fallon streets. Both cars were wrecked, one being almost demolished. Neither Kretz nor Smith was hurt. L. W. Craig, 1413 Second avenue, who was with Smith, escaped without injury.

A street car in charge of Molorman M. G. Asher and Conductor L. E. Stewart split a switch at Water street and Franklin, jumped the tracks and crashed into a telegraph pole, smashing the front end of the car. No one was hurt.

A peculiar accident occurred on the Twelfth street dam last evening when two automobiles and a street car came together. One of the machines swerved into the street car and tore away the front end. On rebounding, the machine crashed into a second car that had been following behind. No one was hurt. Those in the automobiles were Sam Palma and J. P. Wreare, 2943 Mission street, San Francisco, and M. Tucasse, his wife and two children, 3335 Twentieth street, San Francisco.

Harry Miller, Hotel Vernon, driving an automobile along East Twelfth street, lost a wheel and crashed into a telegraph pole, wrecking it and wrecking the front of the machine. He was not injured.

Driving automobiles in a Nineteenth street and the Park Boulevard, O. Halverson, 2145 East Twenty-fourth street, and R. P. Guthrie, 1207 East Fifteenth street, came together with disastrous results to the autos, but no injury to the drivers.

C. F. Chute, 600 Tyler street, Berkeley, in an automobile, collided with Alton Sherwood, 3629 Seventeenth street, San Francisco, riding a motorcycle, collided at Twelfth and Fallon streets. Neither was hurt.

Alfred Jorgensen, 3545 Helen street, and Christ Swanson, 588 Tenth street, are suffering from serious injuries as the result of an automobile accident near Hayward yesterday when their machine overturned. The two were returning from a business trip to Dublin and, while on the Hayward-Dublin road, their machine, approaching the edge of the highway, suddenly skidded and turned, pinning them beneath it.

They were picked up by a passing automobile and hurried to Hayward, whence they were later taken to the Merritt Hospital. Jorgensen is suffering from a broken collar bone and several broken ribs, and Swanson is badly cut and is being held for examination for possible internal injuries.

AUTOS IN CRASH.

SAN MATEO, May 1.—Three automobiles crashed together on the State Highway near Berkeley yesterday, and several passengers had narrow escapes. George Buckingham of San Francisco, sustained a broken nose and the occupants of the other cars were badly shaken. The accident occurred when a machine driven by Fred Waiderson, of Arlington avenue, San Francisco, was hit by a car driven by Joseph Perry of Redwood City. The impact swerved the autos into Buckingham's car. Mrs. Aurelia Buckingham, mother of driver of one of the cars, is suffering from nervous shocks and Henry and Fisher Buckingham escaped unhurt. The machines were slightly damaged.

MAN FATALLY INJURED.

SAN JOSE, May 1.—G. Gehlert, an artist, of San Francisco, and May Tanner, San Francisco, are under arrest here as the result of an automobile accident in which an unidentified pedestrian was fatally injured here yesterday. The accident occurred near Mountain View when the man, who was crossing the road, was hurled to the pavement by the machine. Efforts are being made to identify the victim.

CYCLIST IS STRUCK.

SANTA ROSA, May 1.—Henry Heitz of Healdsburg, is suffering from serious injuries as the result of being struck by a motorcycle he was riding, which collided with a buggy on the State Highway. His head struck the pavement. The occupants of the buggy were uninjured.

WOMAN HURT IN WRECK.

SANTA ROSA, May 1.—Mrs. W. L. Worth, wife of the former principal of the University school here, was injured when the automobile in which she was driving with her husband struck a telegraph pole. He had turned out to avoid Chester Zellner, who was riding a bicycle.

ROAD BUILDERS CONVENE.

SEATTLE, May 1.—With many county engineers, commissioners and road supervisors present, the first annual road builders' institute opened at the University of Washington at 10 o'clock this morning.

Day of Perfect Double Vision Lenses Has Arrived

Long Wished For Invention At Last A Reality.

Wearers of glasses and optical scientists have long wished for a color day when a perfect bifocal would be made. The old style bifocals, while serving their purpose in a measure, were in most cases unsatisfactory. They objected to them on account of their appearance, others on account of the so-called "rainbow" colored which were quite perceptible and annoying. At last perfect double vision lenses have been perfected and are known as "Caltex Onapiece" Bifocals. Reading and distance corrections are doubled in one lens, which being ground from a single piece of glass have the appearance of regular glasses. Remember the name "Caltex." Ground at the three establishments of the California Optical Co., 1321 Broadway, Oakland; 131 Post street, and 2608 Mission St., San Francisco.—Adv.

U. C. MAN IN WAR ZONE IS WOUNDED

George Manship '11, in
Hospital, Writes From
Rouen

Tells of His Trench Life
With Army of
Allies

BERKELEY, May 1.—Under postmark at Rouen, George Manship, one of the most talented actors the University of California has graduated in recent years, has written to college friends of his exciting experiences in the British trenches. He wrote from a hospital cot after "happening to be too near a big shell when it burst."

Manship was graduated from the university with the class of 1911. He appeared in important roles in numerous campus productions, especially the lead parts in "The Student's Holiday" and "The Schoolmistress." After graduation he went to England, his native country, to continue dramatic work. He entered the army soon after war was declared.

At present I am under a red blanket, tucked up in a little bed in the Red Cross Hospital at Rouen," he writes to Harvey Roney, alumni secretary. "No, I am not wounded. I just happened to be too near a big shell when it burst. It sort of picked me up and threw me against a buttress of the trench, and since then, a matter of about ten days, I have had some difficulty in breathing and have been unable to sleep. The wonderful thing is that there is any of me left to need either breath or sleep. I can't imagine how the flying splinters missed me, or failing that, why I was not blown to little pieces."

"It is quite an interesting experience, but not what one would think. In duration it lasts about two seconds and the predominant thought is, it got me, and then, being picked up by the concussion and thrown back, one gets up and wonders why it hurt. The next thing is to dig in the hole made by the shell and find the fuse cap. I have got mine, and he's quite a good souvenir."

"The rest has come at quite an opportune time, for we had just done three solid weeks in the front line trenches, and after three weeks of knee-deep mud and water, with boots and clothes on the whole line, one is quite ready for a rest. Still, one gets along all right and it soon becomes quite natural to sleep so. As the boots are caked in mud, a sandbag is pulled over each, just to spare the blanket a little, and one sleeps quite soundly."

"We have been under heavy shell fire for nearly the whole of the time, and looks like a sieve."

Cupid Waits Divorce Decree Wedding Bells Follow Ames' Suit

Cupid, lurking in the background in the sensational divorce case of Frank P. Ames, attaché of the Mare Island navy yard, asserted himself Saturday and today Ames and his new bride, who was Mrs. N. Whitehead, are enjoying a quiet honeymoon, while the first decree, now separated by a final decree, the ceremony being performed by Rev. D. A. Nobley of the Methodist church.

The Ames case attracted considerable attention when Mrs. Alice Denio, friend of the wife, straggled attorney Margaret Ogden to resist the final decree and have the interlocutory decree set aside on the ground of fraud, setting forth that Mrs. Ames was a mental incompetent. A long petition detailed several counsels in an effort to show the fraud of the final decree through a compromise with Mrs. Ames by which she had the interlocutory decree set aside on the ground of fraud, setting forth that Mrs. Ames was a mental incompetent. A long petition detailed several counsels in an effort to show the fraud of the final decree through a compromise with Mrs. Ames by which she had the interlocutory decree set aside on the ground of fraud, setting forth that Mrs. Ames was a mental incompetent. Sound Mind, Sound Body, U. C. Plans

Theory to Be Worked
Out at Summer
Session

Coaching School Is New
Innovation of De-
partment

BERKELEY, May 1. — The theory of "sound mind in sound body" is to be put out in continued and earnest practice at the summer session of the University of California, which will be held from June 28 to August 5. Physical education, rather than for its own sake alone, will be the work in numerous courses in the department of that name which will be directed by Professor F. L. Kieboer, head of the regular university faculty.

The same general theory will control all classes from the coaching school in major athletics to the courses for Boy Scouts and Campfire Girls. The innovation of the department will be the coaching school which will provide instruction for men who would coach high school and college teams in the major sports. Andy Smith, Walter Christie, Fred Cozart, Ben Chaffin and others will give these courses.

Miss Mary Shatter, director of the children's activities for the school of directed activities, will co-operate with Trainer Christie in teaching women students how to participate in track events and how to play basketball, baseball and hockey.

CAMPFIRE ACTIVITIES. Campfire activities for girls will be as much a part of the summer session as will be the Boy Scout and Campfire courses in the school of directed activities, which is intended to give instruction in playground and kindergarten work for young children. It is here that Professor Kieboer expects to work out his theory of education with greatest effect.

"Mental development should always be the aim of physical exercise," he declares. "The knowledge which a child acquires in six months after a few months of physical exercise is assigned to make him physically perfect."

In addition to the regular curriculum of physical education in the department, which will be given, these classes will include instruction in the physiology of exercise, therapeutic gymnastics and the history and theory of physical education.

Recreational activities for all students of the summer session also are being arranged by the physical education department. Excursion, campfire, meetings, basket lunch trips and many trips to points of interest about the bay are planned and so far arranged. The opening excursion will be held July 3. A steamer will be chartered to take the students to the bay to various points of interest.

TRIPS FOR STUDENTS. Regular Wednesday evening campfire meetings are planned to permit the students to become better acquainted. These will be held in the grove west of California Hall, and the first will be held on Wednesday, May 3, at 8 o'clock. A steamer will be chartered to take the students to the bay to various points of interest.

Longer trips by automobile and train are also being arranged. A bus of information will be conducted in connection with all recreational activities about the bay for the information of students.

Prof. Reed to Lecture
at Summer Session

BERKELEY, May 1. — Thomas Harrison Reed, associate professor of government, former secretary to Governor Johnson, is to give a course of lectures during the summer session at the University on the general theme of "The Evolution of the American Republic."

The course will be given in the University of California building, and will be held during the summer session. The course will be given in the University of California building, and will be held during the summer session.

Longer trips by automobile and train are also being arranged. A bus of information will be conducted in connection with all recreational activities about the bay for the information of students.

Play Produced Before Twentieth Century Club Audience

BERKELEY, May 1. — Canons of modern stage art were faithfully followed at a production at the Twentieth Century Club of William Butler Yeats' "The Hour Glass" which attracted a large audience to the clubhouse on Derby street.

Miss Katherine Jewell Everts, until recently of the University of California, and several students at the university and others engaged in the play.

The setting was of a type which was new to most of the audience. The tones of the setting were from the past, but which was new to most of the audience.

SAND BEACHES IN ALAMEDA CROWDED

Gay Throngs Take to Salt
Plunges in Pleasure
Resorts.

ALAMEDA, May 1. — The high water mark in Alameda bathing beach attendance was easily reached yesterday. The warm day drove to the beaches and playgrounds the largest mass of persons gathered at the beaches in years.

Every bathing suit, almost every square inch of beach, were made use of to accommodate the throngs which kept the beach section crowded until late at night.

Figures from the entrance gates, from the crowds on trains and cars, and the hundreds of autos lined up along the entire bathing beach furnished the conservative estimates that over 100,000 persons were visitors at some one of the bathing places yesterday.

The Sunday crowds followed a large crowd yesterday, which held a good profit to the bathing beach. Today, being a school holiday, brought still another heavy attendance to the beaches.

That the beaches are to do the entire city material good is evidenced by the increasing demand for summer accommodations for the city. The demand for summer accommodations for the city is increasing.

'Ragging' Before Public Meeting

Berkeley School 'Policy'
at Stake

BERKELEY, May 1. — The question of permitting "ragging" at Berkeley school dances will be considered at a public meeting of parents which has been arranged for this evening at the Hotel Shattuck.

The principal of the Berkeley High school will preside. An exhibition of both the objectionable and unobjectionable forms of dancing will be given.

The meeting is the sequel of a campaign against dancing in Berkeley schools. The campaign has been organized by the Berkeley mothers' club and other organizations.

The campaign has been organized by the Berkeley mothers' club and other organizations. The campaign has been organized by the Berkeley mothers' club and other organizations.
